

Cyprus in Figures

2011-2012 Edition

REPUBLIC OF CYPRUS

STATISTICAL SERVICE OF CYPRUS

The current release coincides with Cyprus taking over the Presidency of the Council of the European Union, for the first time, during the second semester of 2012. The Statistical Service of Cyprus will be in charge of preparing and conducting the meetings of the Council Working Party on Statistics. In this respect, the Cyprus Presidency will continue the work for the provision of high quality, reliable and relevant European statistics in compliance with the principles of the European Statistics Code of Practice.

The Presidency will emphasise the necessity for a continuous focus on simplification and prioritisation initiatives in the field of statistics, as well as on the reduction of the administrative burden on statistical authorities and respondents, which are key elements in balancing the new data needs against the increasing resource constraints.

COUNTRY'S PROFILE

Cyprus is a small island of 9.251 sq km (3.572 sq miles), extending 240 km (149 miles) from east to west and 100 km (62 miles) from north to south. It is strategically situated in the far eastern end of the Mediterranean (33° E, 35° N), at the crossroads of Europe, Africa and Asia, and in close proximity to the busy trade routes linking Europe with the Middle East, Russia, Central Asia and the Far East.

Cyprus has a Mediterranean climate: hot dry summers from June to September and mild, wet winters from November to March, which are separated by short Autumn and Spring seasons of rapid change in weather patterns in October, April and May. Sunshine is abundant during the whole year, particularly from April to September when the daily average exceeds eleven hours. There are two mountain ranges on the island: the Pentadaktulos range which runs along almost the entire northern coast, and the Troodos massif in the central and south-western parts of the island which culminates in the peak of Mount Olympus, 1.953 m, above sea level. Cyprus' coastal line is indented and rocky in the north with long sandy beaches in the south. Between the two ranges lies the fertile plain of Mesaoria.

Cyprus became politically independent from British rule in 1960. The Turkish invasion, launched on 20 July 1974, resulted in the occupation of 40% of the island's territory and about 200.000 Greek Cypriots were displaced.

On 1 May 2004 the Republic of Cyprus became a full member of the EU and in January 2008 Cyprus joined the Eurozone. Accession to the EU was a natural choice for Cyprus, dictated by its culture, civilisation, history, its European outlook and adherence to the ideals of democracy, freedom and justice. Since its accession to the EU, Cyprus has undergone significant structural reforms that have transformed its economic landscape. Trade and interest rates have been liberalised, while price controls and investment restrictions have been lifted. Private financing has been introduced for the construction and operation of major infrastructure projects and monopolies have been abolished.

The new political context created by the accession to the EU is also expected to have a positive impact on the efforts to reach a comprehensive settlement to the division of Cyprus that will reunite its people and reintegrate its economy.

European Statistical Data Support (ESDS)

- All the information contained on the website of Eurostat (<http://ec.europa.eu/eurostat>) is available free of charge to all users. Amongst other, the website offers access to statistical data contained in Eurostat's databases as well as to the publications of Eurostat in electronic format (pdf).
- Eurostat set up with all Member States a network of support centers. Their mission is to provide help and guidance to Internet users of European statistical data, thus to all users of Eurostat's website.
- As from January 2005 the Statistical Service of Cyprus (CYSTAT) has set up the Centre of European Statistical Data Support (ESDS) which provides support for the following:
 - Information on availability of data/ publications
 - Verification of data
 - Methodological information
 - Technical support
- Users may contact the ESDS Centre via:
 - CYSTAT's website (<http://www.cystat.gov.cy>) under the section Services / ESDS where they can fill out the predefined form
 - email: eustatistics@cystat.mof.gov.cy
 - Telephone: +357-22605151
 - Fax: +357-22661313
- The service is available daily during the working hours of the Cyprus civil service.
