PREFACE

This report is issued on a monthly basis and aims at providing a general view of the external trade of Cyprus and its partner countries for December 2005. It is divided into three parts. Part A pertains to total trade statistics under the general trade system, Part B to Extra-EU trade statistics under the special trade system and Part C to Intra-EU trade statistics.

The statistics of trade with non-EU countries (Extra-EU trade) are compiled mainly from THESEAS system, the computerised system of Customs Authorities for imports and the Single Administrative Document for exports. The statistics of trade with EU countries (Intra-EU trade) are compiled via the INTRASTAT system and the data collected via the VAT returns.

The valuable cooperation of the Department of Customs and Excise and the VAT Service is acknowledged.

This report was prepared by the staff of the Foreign Trade Section, under the guidance of Ms Evi Kalogirou, Statistics Officer and the general supervision of Mr. George Zeitountsian, Senior Statistics Officer, Head of the National Accounts and Foreign Trade Sections.

Imports

Imports **under special trade system** include:

a) Goods, which enter the statistical territory of Cyprus from a non-member country and are:

- Placed under the CUSTOMS procedure for release into free circulation (goods intended to be consumed in Cyprus or dispatched to another Member State), either immediately or after a period in a CUSTOMS warehouse or
- Placed under the CUSTOMS procedure for inward processing or processing under CUSTOMS control (usually goods destined to be processed, transformed or repaired for subsequent re-export) either immediately or after a period in a CUSTOMS warehouse.

b) Some movements of goods are included in statistics based on specific conditions. In particular, aircraft and ships whose ownership has been transferred from a person established in a non-member country to a person established in Cyprus are included in import statistics of Cyprus.

Exports

Exports **under special trade system** include:

a) goods that leave the statistical territory of Cyprus bound for a non-member country, having gone through:

- The CUSTOMS export procedure (final export, export following inward processing, etc.); or
- The CUSTOMS outward-processing procedure (usually goods destined to be processed, transformed or repaired for subsequent re-import).

Special trade system

The special trade system is a narrower concept. Goods from a foreign country which are received into customs warehouse are not recorded in the special trade aggregates unless they subsequently go into free circulation in Cyprus (or are placed under the customs procedures for inward processing). Similarly, outgoing goods from customs warehouses are not recorded as exports.

Stores and provisions

Stores and provisions denote ships' and aircraft's stores and supplies.

- ships and aircraft's stores' means the various products for consumption by the crew and passengers of vessels or aircraft;

- ships and aircraft's supplies' means the products for the operation of the engines, machines and other equipment on vessels or aircraft, such as fuel, oil and lubricants.

Domestic and foreign goods

Domestic goods are goods originating in the economic territory of Cyprus; if they have been wholly obtained in it or were substantially transformed by processing in it, so that the processing confers domestic origin. Goods originally imported and having undergone only repair or minor operations which leave them essentially unchanged are not defined as domestic. Minor operations include blending, packaging, bottling, cleaning, sorting, husking and selling.

Foreign goods are goods originating in the rest of the world, i.e not included in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.
