PREFACE

This report is issued on a monthly basis and aims at providing a general view of the external trade of Cyprus and its partner countries for November 2007. It is divided into three parts. Part A pertains to total trade statistics under the general trade system, Part B to Extra-EU trade statistics under the special trade system and Part C to Intra-EU trade statistics.

The statistics of trade with non-EU countries (Extra-EU trade) are compiled mainly from THESEAS system, the computerised system of Customs Authorities for imports and the Single Administrative Document for exports. The statistics of trade with EU countries (Intra-EU trade) are compiled via the INTRASTAT system and the data collected via the VAT returns.

The valuable cooperation of the Department of Customs and Excise and the VAT Service is acknowledged.

This report was prepared by the staff of the Foreign Trade Section, under the guidance of Mr. Harris Ioannou, Statistical Officer and the general supervision of Mr. George Zeitountsian, Senior Statistics Officer, Head of the National Accounts and Foreign Trade Sections.

1. Care should be taken when comparing data for May 2004 onwards with pre-May 2004 data due to methodological changes resulting from the accession of Cyprus to the EU.

Notes:

1. QV denotes countries and territories not specified in the framework of intra-Community trade, while QR denotes stores and provisions within the framework of intra-Community trade.
2. Data on countries and territories not specified and stores and provisions prior May 2004 were not recorded separately for the trade with EU countries. The information is included in Part 3.
3. Because of rounding there may be slight discrepancies between the totals shown and the sum of constituent items.

APPENDIX

DEFINITIONS OF TERMS USED

Arrivals

"Arrivals" are analogous to imports.

Arrivals include:

- a) goods in free circulation which enter the statistical territory of Cyprus;
- b) goods which have been placed under the CUSTOMS procedure for inward processing or processing under CUSTOMS control (for processing, transformation or repair) in another Member State and which enter the statistical territory of Cyprus.
- c) Some goods movements are included in statistics based on specific conditions. In particular, aircraft and ships whose ownership has been transferred from a person established in another Member State to a person established in the Cyprus are included in the statistics of arrivals of Cyprus.

Dispatches

"Dispatches" are analogous to exports.

Dispatches include:

- a) goods in free circulation which leave the statistical territory of Cyprus bound for another Member State;
- b) goods which have been placed under the CUSTOMS procedure for inward processing or processing under CUSTOMS control (for processing, transformation or repair) in Cyprus and which are destined for another Member State.
- c) Some goods movements are included in statistics based on specific conditions. In particular, aircraft and ships whose ownership has been transferred from a person established in the Cyprus to a person established in another Member State are included in the statistics on dispatches of Cyprus.

Imports

Imports **under special trade system** include:

a) Goods, which enter the statistical territory of Cyprus from a non-member country and are:

- Placed under the CUSTOMS procedure for release into free circulation (goods intended to be consumed in Cyprus or dispatched to another Member State), either immediately or after a period in a CUSTOMS warehouse or
- Placed under the CUSTOMS procedure for inward processing or processing under CUSTOMS control (usually goods destined to be processed, transformed or repaired for subsequent re-export) either immediately or after a period in a CUSTOMS warehouse.

b) Some movements of goods are included in statistics based on specific conditions. In particular, aircraft and ships whose ownership has been transferred from a person established in a non-member country to a person established in Cyprus are included in import statistics of Cyprus.

Exports

Exports **under special trade system** include:

a) goods that leave the statistical territory of Cyprus bound for a non-member country, having gone through:

- The CUSTOMS export procedure (final export, export following inward processing, etc.); or
- The CUSTOMS outward-processing procedure (usually goods destined to be processed, transformed or repaired for subsequent re-import).

The Harmonized Commodity Description and Coding System (HS)

The Harmonised System is a legal instrument adopted by the Customs Co-operation Council (now the World Customs Organisation) in June 1983 and the International Convention on the Harmonised System (H.S. Convention) entered into force on the 1st January 1988.

According to the H.S. Convention, the HS “means the Nomenclature comprising the headings and the subheadings and their related numerical codes, the Section, Chapter and Subheadings notes and the General Rules for the interpretation of the Harmonised System”. The H.S. is designed as a “multipurpose nomenclature”, to be used for transportable goods. Both H.S. and C.N. are therefore concerned heavily with the nature or material of the product.

The shape of the H.S. and the C.N. classifications is illustrated in the following table:

<u>Nomenclature</u>	<u>Levels of breakdown</u>	<u>Code</u>	<u>Number</u>
H.S.	Section	One digit	21
	Chapter	Two digits	99
	Heading	Four digits	1244
	Sub-heading	Six digits	5224
C.N.	Sub-heading	Eight digits	10096

Country classification

The classification of countries is the country nomenclature (Geonomenclature) as set annually in the Official Journal of the European Communities. The full list of countries is given in an essentially geographical order in Table 4, Part A, Total trade statistics.

Partner country

For exports and dispatches, the trading partner is the country (or Member State) of final destination of the goods. The last country to which the goods are specifically directed on their outward movement from the State is regarded as their final destination. This is not necessarily the country in which the good will be unshipped or that in which they will be finally consumed.

For imports (extra-EU trade), the trading partner is the country of origin. In general, goods obtained entirely from a given country originate in that country. A product, in the production of which two or more countries were concerned, is considered as originating in the country in which the last transformation or substantial processing took place. Packing repacking, sorting and blending are not regarded as manufacturing processes.

For arrivals (intra-EU trade), the trading partner is the Member State of consignment of the goods.

Trade systems

There are broadly two approaches, closely linked with customs procedures, used for the measurement of international trade in goods: the general trade system and the special trade system.

General trade system

The general trade system is the wider concept and under it the recorded aggregates include all goods entering or leaving the economic territory of Cyprus with the exception of simple transit trade. In particular all goods which are received into customs warehouses are recorded as imports at that stage whether or not they subsequently go into free circulation in Cyprus. Similarly, outgoing goods from customs warehouses are included in the general trade aggregates at the time they leave Cyprus.

Special trade system

The special trade system is a narrower concept. Goods from a foreign country which are received into customs warehouse are not recorded in the special trade aggregates unless they subsequently go into free circulation in Cyprus (or are placed under the customs procedures for inward processing). Similarly, outgoing goods from customs warehouses are not recorded as exports.

Stores and provisions

Stores and provisions denote ships' and aircraft's stores and supplies.

- ships and aircraft's stores' means the various products for consumption by the crew and passengers of vessels or aircraft;

- ships and aircraft's supplies' means the products for the operation of the engines, machines and other equipment on vessels or aircraft, such as fuel, oil and lubricants.

Domestic and foreign goods

Domestic goods are goods originating in the economic territory of Cyprus; if they have been wholly obtained in it or were substantially transformed by processing in it, so that the processing confers domestic origin. Goods originally imported and having undergone only repair or minor operations which leave them essentially unchanged are not defined as domestic. Minor operations include blending, packaging, bottling, cleaning, sorting, husking and selling.

Foreign goods are goods originating in the rest of the world, i.e not included in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.
