PREFACE

This report is issued on a monthly basis and aims at providing a general view of the external trade of Cyprus and its partner countries for August 2020. It is divided into three parts. Part A pertains to total trade statistics under the general trade system, part B to extra-EU trade statistics under the special trade system and part C to intra-EU trade statistics. All values shown in the tables of this report are in euros.

The statistics of trade with non-EU countries (extra-EU trade) are compiled mainly from 'THESEAS' system, the computerized system of customs authorities for imports and the customs computerized system for exports. The statistics of trade with EU countries (intra-EU trade) are compiled mainly via the Intrastat system and the data collected via the VAT returns.

This report was prepared by Mrs. Ioanna Leontiou, Statistics Officer, under the guidance of Mr. Sofronis Vikis, Statistics Officer A' and the general supervision of Mr. Pantelis Protopapas, Head of the Business, Energy, Environment, Agriculture, Science and Technology and Foreign Trade Statistics Division.

The valuable cooperation of the Department of Customs and Excise and the Tax Department is acknowledged.

1. Trade with the United Kingdom is included in other European countries/territories. Imports from the United Kingdom are recorded by country of consignment, while imports from any other extra-EU27 trade partner are recorded by country of origin, as the *acquis communautaire* is still applicable to the United Kingdom up to December 2020. For this reason, data on imports from the UK are not fully comparable with data on trade with other extra-EU27 trade partners.

2. Trade with the European Union excluding intra EU countries and territories not specified.

APPENDIX

DEFINITIONS OF TERMS USED

Arrivals

“Arrivals” are analogous to imports.

Arrivals include:

- a) Goods in free circulation which enter the statistical territory of Cyprus.
- b) Goods which have been placed under the customs procedure for inward processing or processing under customs control (for processing, transformation) in another Member State and which enter the statistical territory of Cyprus.
- c) Certain goods are included in statistics based on specific conditions e.g. aircrafts and ships whose economic ownership has been transferred from a natural person or legal entity established in another Member State to a natural person or legal entity established in Cyprus are included in the statistics of arrivals of Cyprus.

Dispatches

“Dispatches” are analogous to exports.

Dispatches include:

- a) Goods in free circulation which leave the statistical territory of Cyprus bound for another Member State.
- b) Goods which have been placed under the customs procedure for inward processing or processing under customs control (for processing, transformation) in Cyprus and which are destined for another Member State.
- c) Certain goods are included in statistics based on specific conditions. In particular, aircraft and ships whose economic ownership has been transferred from a natural person or legal entity established in the Cyprus to a natural person or legal entity established in another Member State are included in the statistics of dispatches of Cyprus.

Imports

Imports under special trade system include:

- a) Goods, which enter the statistical territory of Cyprus from a non-Member State country and are:
 - Placed under the customs procedure for release into free circulation (goods intended to be consumed in Cyprus or dispatched to another Member State), either immediately or after a period in a customs warehouse; or
 - Placed under the customs procedure for inward processing of processing under customs control (usually goods destined to be processed, transformed for subsequent re-export) either immediately or after a period in a customs warehouse,
- b) Certain goods are included in statistics based on specific conditions e.g. aircrafts and ships whose economic ownership has been transferred from a natural or legal person established in a non - Member State country to a natural person or legal entity established in Cyprus are included in import statistics of Cyprus.

Exports

Exports under special trade system include:

- a) Goods that leave the statistical territory of Cyprus bound for a non-Member State country, having gone through:
 - The customs export procedure (final export, export following inward processing, etc.); or
 - The customs outward-processing procedure (usually goods destined to be processed, transformed for subsequent re-import).

- b) Certain goods are included in statistics based on specific conditions e.g. aircrafts and ships whose economic ownership has been transferred from a natural or legal person established in Cyprus to a natural person or legal entity established in a non – Member State country are included in export statistics of Cyprus.

The harmonised commodity description (HS) and partner country coding system

The Harmonised System is a legal instrument adopted by the Customs Co-operation Council (now the World Customs Organization) in June 1983 and the International Convention on the Harmonised System (HS Convention) entered into force on the 1st January 1988.

According to the HS Convention, the HS means the nomenclature comprising the headings and the subheadings and their related numerical codes, the section, chapter and subheadings notes and the general rules for the interpretation of the Harmonised System. The HS designed as a multipurpose nomenclature, to be used for transportable goods.

Both HS and CN are therefore concerned heavily with the nature or material of the product.

The structure of the HS and the CN classifications (for the year 2020) is illustrated in the following table:

<u>Nomenclature</u>	<u>Levels of breakdown</u>	<u>Code</u>	<u>Number</u>
Harmonised System (HS)	Section	One digit	21
	Chapter	Two digits	98
	Heading	Four digits	1222
	Sub-heading	Six digits	5387
Combined Nomenclature (CN)	Sub-heading	Eight digits	9483

Country classification

The classification of countries is the country nomenclature (Geonomenclature) as set out in the Commission Regulation (EU) No 1106/2012. The full list of countries is given in an essentially geographical order in Table 4, Part A, total trade statistics.

For exports and dispatches, the trading partner is the non – EU country (or Member State) of final destination of the goods. The last country to which the goods are specifically directed on their outward movement from Cyprus is regarded as their final destination. This is not necessarily the country in which the good will be unshipped or that in which they will be finally consumed.

For imports (extra-EU trade), the trading partner is the country of origin. In general, goods obtained entirely from a given country originate in that country. A product in the production of which two or more countries were concerned, is considered as originating in the country in which the last transformation or substantial processing took place. Packing, repacking and sorting are not regarded as manufacturing processes.

For arrivals (intra-EU trade), the trading partner is the Member State of consignment of the goods.

Trade systems

There are broadly two approaches, closely linked with customs procedures, used for the measurement of international trade in goods: the general trade system and the special trade system.

General trade system

The general trade system is the wider concept and under it the recorded aggregates include goods entering or leaving the economic territory of Cyprus with the exception of simple transit trade or transshipment of goods. Quasi transit trade is included in general imports and exports statistics. In particular, goods which are received into customs warehouses are recorded as imports at that stage whether or not they subsequently go into free circulation in Cyprus. Similarly, outgoing goods from customs warehouses are included in the general trade aggregates at the time they leave Cyprus.

Special trade system

The special trade system is a narrower concept. Goods from a non - EU country which are received into customs warehouses are not recorded in the special trade aggregates unless they subsequently go into free circulation in Cyprus (or are placed under the customs procedures for inward processing).

Similarly, outgoing goods from customs warehouses are not recorded as exports.

Stores and provisions

Stores and provisions denote ships and aircrafts stores and supplies.

Ships and aircrafts stores mean the various products for consumption by the crew and passengers of vessels or aircrafts;

Ships and aircrafts supplies means the products for the operation of the engines, machines and other equipment on vessels or aircrafts, such as fuel, oil and lubricants.

Domestic and foreign goods

Domestic goods are goods originating in the economic territory of Cyprus; if they have been wholly obtained in it or were substantially transformed by processing in it, so that the processing confers domestic origin. Goods originally imported and having undergone only repair or minor operations, which leave them essentially unchanged are not defined as domestic. Minor operations include packaging, bottling, cleaning, sorting etc.

Foreign goods are goods originating in the rest of the world, i.e. not included in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.
