P R E F A C E

The “Monthly Economic Indicators” is designed to bring together selected economic indicators so as to capture significant short-term developments in the Cyprus economy. This report is produced directly from a computerised information storage system.

As far as possible, monthly data are presented for the last twenty-five months, quarterly data for the last eight quarters, and annual data for the last three years.

This edition refers to the second half of 2005 although in certain cases it also includes recently available data covering the months January-April 2006.

Most of the data are compiled by the Statistical Service. The indicators on the balance of payments, foreign exchange and the monetary sector are provided by the Central Bank of Cyprus and the Department of Co-operative Development. Part of the data on tourism is compiled by the Cyprus Tourism Organisation and the data on share price indices by the Cyprus Stock Exchange.

The co-ordination of the various series and the preparation of this publication were undertaken by Mrs A. Christodoulou, Mrs M. Constantinou and Mrs A. Sofroniou, under the supervision of Mr Zeitountsian, officer-in-charge of the National Accounts.

Sincere thanks and appreciation are extended to all government departments, semi-government organizations and private enterprises for their valuable assistance in providing the necessary data for this report.

P. Philippides
Director
Statistical Service

62. Return of residents by country visited.....	129-130
63. Overnight stays in tourist accommodation establishments ...	131
64. Bed occupancy rates in tourist accommodation establishments .	132
65. Bed capacity in tourist accommodation establishments in operation .	133
66. Number of beds in tourist accommodation establishments under construction	134
APPENDIX	
1. Summary statistics, 2004-2005.	137-141

OUTLINE OF ECONOMIC DEVELOPMENTS

The economy continued its expansion through the year 2005, with a growth rate provisionally anticipated to be of the order of 3,8%.

More particularly, the main developments were as follows:

- During the period January-December 2005, arrivals of **travellers** (including excursionists) reached 3.620.235 showing an increase of 7,1%, while arrivals of tourists reached 2.470.057 recording an increase of 5,2% compared to the same period of the previous year.

- **Manufacturing production** during January-December 2005 showed a 1,3% decrease compared to 2004. The food, beverages & tobacco industry showed an increase of 0,7% while the textiles & textile products industry recorded a decrease of 7,1%.

Domestic exports of manufactured products rose to £181,7mn and recorded an increase of 1,4% during January-December 2005. Exports of pharmaceutical products rose to £50,4mn and recorded an increase of 1,6% compared to January-December 2004. Exports of clothing fell to £4,5mn and showed a decline of 41,0%, while exports of cigarettes fell to £7,9mn or decreased by 33,2%.

- As regard the **construction** activity, local sales of cement increased by 3,4% during January-December 2005. The area of building permits authorised, which is a leading indicator of the future performance of construction activity, increased by 13,3% during January-December 2005.

- At the end of December 2005, the number of **registered unemployed** fell to 13,786 or 3,9% of the economically active population, compared to 16,600 or 4,8% of the economically active population in December 2004.

- During January-December 2005, **motor vehicle registrations** reached a total number of 48.712, recording a decrease of 9,9% compared to the same period of the previous year. Registrations of private saloon cars fell to 36.464 or decreased by 12,8% while light goods vehicles fell to 3.626 and recorded a decrease of 1,7%.

- **Consumer demand** during January-December 2005 as indicated by the turnover index of retail trade, showed an increase of 5,1% in nominal terms and an increase of 4,8% in real terms.

- The rate of **inflation** as measured by the consumer price index, showed an average increase of 2,6% during January-December 2005. The prices of local products increased by 3,9% and by 3,3% those of services, while the prices of imported products decreased by 2,5%.

- During January-December 2005, total **imports** rose to £2.966,8mn or increased by 10,7%. Total **exports** rose to £719,2mn or increased by 31,2%.
- The **balance of payments** current account showed a deficit of £452,9mn during January-December 2005 compared to a deficit of £416,3mn in January-December 2004.
- The **total Money Supply** at the end of December 2005, expanded at a higher growth rate (on an annual basis) of 10,3%, compared to a 6,5% growth rate at the end of December 2004. A deceleration was observed in the expansion of the claims on the private sector, which decreased by 6,2% in December 2005, compared to a 6,4% growth rate in December 2004.
- The **Cyprus Stock Market** shows an increasing trend during 2005 and the all-share price index raised to 1.704,8 units in December 2005, compared to 1.012,3 units in December 2004.

Recent developments in 2006

During the period January-April 2006, arrivals of **travellers** (including excursionists) reached 767,437 showing an increase of 0,8%, and arrivals of tourists reached 434,645 recording a decrease of 3,9 % compared to the same period of the previous year. The **manufacturing production** during January-February 2006 showed a 1,5% decrease compared to 2005. **Consumer demand** during January-February 2006 as indicated by the turnover index of retail trade, showed an increase of 6,6% in nominal terms and an increase of 5,5% in real terms. As regard the **construction** activity, local sales of cement showed a decrease of 6,8% during January-April 2006. At the end of April 2006 the **registered unemployed** fell to 3,2% of the economically active population, compared to 3,9% in March 2006. Total **motor vehicles registrations** during January-April 2006 showed a decrease of 2,5%. The rate of **inflation** as measured by the consumer price index, showed an average increase of 2,8% during January-April 2006. During January-March 2006, total **imports** rose to 744,6mm or increased by 11,7%. Total **exports** rose to 157,7mm or increased by 7,2%.

Composite Leading Indicator for the Overall Economic Activity

For the improvement of short-term economic analysis the Statistical Service compiles composite indicators for the Cyprus economy, by bringing together a number of individual indicators.

The most important of the indicators constructed is the composite leading indicator for the overall economic activity, which is concerned with identifying turning points of the business cycle earlier than the other customary monthly economic data - it reflects forthcoming trends in economic activity with a lead of about six months. For the compilation of the leading indicator, a number of economic series has been used which, by their nature, demonstrate predictive potential and can thus provide an indication of the performance of the Cyprus economy in the near future.

The causes, consequences, duration and magnitude of changes in an economy vary and therefore the composite indicators, which extend to a wide range of economic activities, can provide a better evaluation of the fluctuations than do individual indicators separately. Composite indicators are less affected by irregular fluctuations and therefore the inaccuracies that may exist in individual indicators are significantly reduced.

The methodology adopted for compiling the composite indicators involves the use of the X-11 Programme of the U.S. Bureau of the Census to seasonally adjust the component series, the computation of moving averages for smoothing irregular variations, the detrending of the series and, after some further adjustments, the combination of the various series to composite indicators using the arithmetic mean.

The series included in the compilation of the composite leading indicator for the overall economic activity are: the number of vacancies outstanding at the District Labour Offices; building permits authorised; registrations of motor vehicles; price index of shares; money supply; the exchange rate of the pound sterling to the Cyprus pound; the composite leading indicator for tourism; and the business climate indicators for manufacturing, tourism and services.

On the basis of the latest available data, the composite leading indicator for the overall economic activity (figure 1) since September 2005 shows improved performance, which is continuing in February 2006. (It should be noted that the composite leading indicator from December 2005 up to February 2006, is based on an incomplete set of data and is subject to revision).

It should be emphasised that the composite indicators do not measure the absolute level of output or actual rates of growth but are concerned only with identifying the cyclical variations around the long-term trend. In particular, the leading indicator provides early indications of cyclical turning points in economic activity. For example, a downturn in the leading indicator indicates that there will be a downturn in the business cycle, i.e., a reduction in the growth rate below that of its long-term trend, but it does not necessarily imply a negative growth rate.

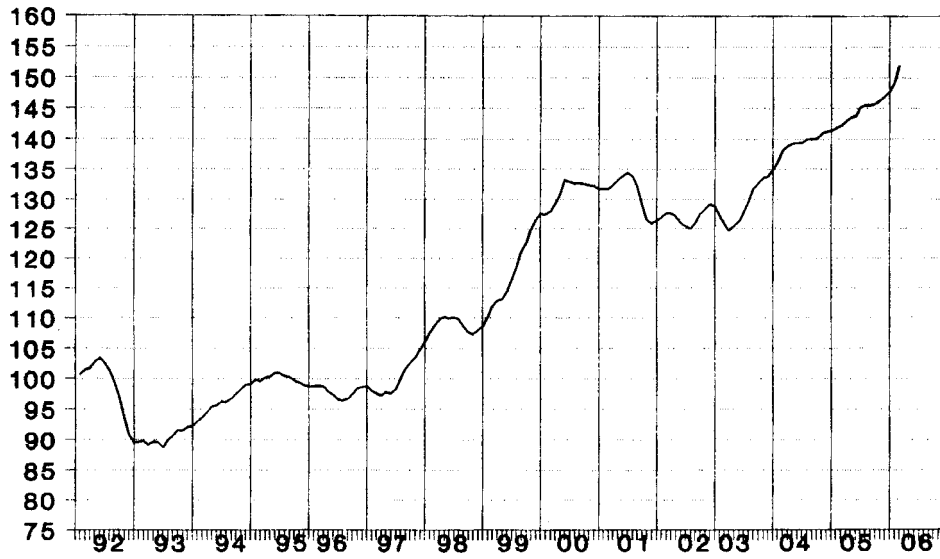

Composite Leading Indicator for Tourism

The series included in the construction of the composite leading indicator for tourism are: the composite leading indicator for the E.U.; the consumer confidence indicator for the E.U.; the exchange rate of a number of foreign currencies relative to the Cyprus pound (inverted), weighted according to the proportion of visitors to Cyprus using these currencies; the level of consumer prices in Cyprus in relation to those in the E.U. (inverted); existing bed capacity in tourist accommodation; business position expectations in the hotel industry for the next six months; demand expectations in the hotel industry for the next three months; and price expectations in the hotel industry for the next three months.

The composite leading indicator for tourism (figure 2) since December 2005, showed an increasing trend after a decline during the previous months. These developments are shown in the diagrams on page 12.

1995 = 100

Note: The leading indicator for January and February 2006 is based on an incomplete set of data and is subject to revision.

Business and Consumer Survey Results for the E.U.

According to the latest results of the European Commission business and consumer surveys, the economic sentiment indicator for the EU-25, increased by 0,8 points in March 2006 compared to February 2006. The ESI is composed of the industrial confidence indicator (40%), the service confidence indicator (30%), the consumer confidence indicator (20%), the construction confidence indicator (5%), and the retail trade confidence indicator (5%). The increase of 0,8 points is due to an improvement in industry (1 point), services (1 point), and retail trade (2 points) confidence indicators. The only decline was in the consumer (1 point) confidence indicators. Confidence indicator in construction remained steady compared to February 2006.

World Economic Developments

According to the Statistical Office of the European Communities (Eurostat), (see summary table 3 on page 31) inflation in the EU-25 in March 2006 rose to 2,1% compared to March 2005. The lowest inflation rates were recorded in Poland (0,9%), Finland (1,2%), Austria (1,3%) and the highest rates were recorded in Latvia (6,6%), Slovakia (4,3%) and Estonia (4,0%). For Cyprus, the harmonised index of consumer prices rose to 2,6% in March 2006 compared to March 2005.

The EU-25 seasonally adjusted unemployment rate remained steady at 8,4% in March 2006 and February 2006. In March 2006, the lowest unemployment rates were recorded in Netherlands (4,0%), Ireland (4,2%) and Denmark (4,3%) and the highest unemployment rates were recorded in Poland (16,8%), Slovakia (15,7%) and France (9,1%).

According to the latest “World Economic Outlook”, (see table on page 14) prepared by the IMF staff and published in September 2005, world output is projected to expand by 4,3% in both years 2005 and 2006 compared to a 5,1% growth rate in 2004.

World trade volume (goods and services) is expected to expand by 7,0% in 2005 and 7,4% in 2006, compared to a 10,3% increase in 2004.

The average price of oil in U.S. dollars was \$37,76 in 2004 and the assumed price is \$54,23 for 2005 (increase of 43,6%) and \$61,75 for 2006 (increase of 13,9%).

Note: Real effective exchange rates are assumed to remain constant at the levels prevailing during July 8-August 5, 2005.

- (1) Simple average of spot prices of U.K. Brent, Dubai, and West Texas Intermediate crude oil.
- (2) Average, based on world commodity export weights.
- (3) London interbank offered rate.

Source: "IMF, World Economic Outlook", September 2005

According to the Autumn 2005 economic forecasts published by the services of the European Commission (based on available data up to the 7th of November, 2005) GDP in the EU-25 is estimated to expand by 1,5% in 2005, approaching 2,1% in 2006 and 2,4% in 2007.

The unemployment rate is expected to fall from 8,7% in 2005 to 8,5% in 2006 and to 8,1% in 2007.

Inflation is expected to fall from 2,3% in 2005, to 2,2% in 2006 and 1,9% in 2007.

The main features of the Autumn 2005 forecasts for the principal macro-economic aggregates of the EU-25, as prepared by the Directorate-General II for Economic and Financial Affairs of the European Commission, are summarized in the table below.

**MAIN ECONOMIC INDICATORS FOR THE
EU-25, 2003-2007**

	Autumn 2005 Forecast				
	2003	2004	2005	2006	2007
GDP growth ^(a)	1,2	2,4	1,5	2,1	2,4
Consumption ^(a)	1,6	2,1	1,6	1,6	2,1
Total investment ^(a)	0,8	3,0	2,3	3,5	3,6
Employment ^(a)	0,2	0,6	0,9	1,0	1,0
Unemployment rate ^(b)	9,0	9,0	8,7	8,5	8,1
Inflation ^(c)	1,9	2,1	2,3	2,2	1,9
Government balance (% GDP)	-3,0	-2,6	-2,7	-2,7	-2,7
Government debt (% GDP)	63,0	63,4	64,1	64,2	64,3
Current account balance (%GDP)	0,1	0,0	-0,3	-0,4	-0,3

(a) Real annual percentage change.

(b) Percentage of the labour force.

(c) Harmonised index of consumer prices, nominal change.

Notes

1. D.L.O.=District Labour Offices

2. Statistics cover the Commercial Banks, the Co-operative Central Bank (excluding the Co-operative Credit Institutions) and other Financial Institutions.

3. The data from August onwards is estimated by the Central Bank of Cyprus from a sample of co-operative credit institutions, which represents approximately 96% of the value of deposits and loans.

4. On 2/1/2006, the old CSE General Index was suspended and the Index of Main and Parallel market,

which had been introduced with the other new CSE Indexes on 3/9/2004, was renamed to CSE General Index.

5. ⁴ On 2/1/2006, the old CSE General Index was suspended and the Index of Main and Parallel market, which had been introduced with the other new CSE Indexes on 3/9/2004, was renamed to CSE General Index.

DEFINITIONS AND EXPLANATORY NOTES

INDUSTRIAL

Turnover Index of Industrial Sector: It is compiled from the monthly turnover of a representative sample of enterprises. The weights given to the various industries are proportional to their turnover in 2000, derived from the Census of Industrial Production.

Volume Index of Industrial Production: This is a composite index of the volume indices of mining and quarrying, manufacturing, electricity, gas and water.

MINING AND QUARRYING

Volume Index of Mining and Quarrying Production: The index is compiled from data on the production of minerals and quarrying materials obtained from the Mines Department and mining enterprises, supplemented with data from other sources. The weights utilised are proportional to the value of the various products at producer prices in 2000.

MANUFACTURING

Volume Index of Manufacturing Production: It is compiled from data on the quantities of the main products manufactured by a representative sample of enterprises; in the case of heterogeneous products where no quantity measurement is possible, value indices are compiled, deflated by corresponding price indices. The weights given to the various industries are proportional to their value added in 2000, derived from the 2000 Census of Industrial Production.

ELECTRICITY, GAS AND WATER

Volume Indices of Production: The indices are based on data on the billed consumption of electricity (i.e., excluding the amount of electricity supplied to the areas occupied by the Turkish invading forces), sales of gas, sales of the Water Boards and the quantity of water purified.

ENERGY

Sales of Petroleum Products are compiled from monthly returns submitted by the petroleum companies. They include sales to industrial establishments, petrol stations, ships, aircraft, military forces, and others. Data for heavy fuel oil include also direct imports by the Electricity Authority and the cement industries. The cement industries also use coal partly in substitution of fuel oil.

Electricity: Data on the production of electricity pertain to the Electricity Authority of Cyprus only. They refer to gross production i.e. the amount of electric energy produced as metered at the output terminals of all sets in the power stations. Consumption figures refer to the billed sales of the Electricity Authority.

CONSTRUCTION

Production Index: The index measures the quarterly changes in production value at constant prices. It is based on a sample of enterprises active in the construction sector. For the calculation of the index and for every quarter the information collected is either work done, or turnover or hours worked by the production personnel (according to the enterprise) and this output measures are then deflated by the Output Prices index.

Price Index of Construction Materials: The price index is based on an extensive list of the main construction materials. The index measures price changes, which are compiled monthly from the main distributors or producers of construction materials. The weights of the various materials are proportional to their respective values at market prices in the base year 2000.

Labour Cost Index: The index measures variations in the average hourly labour cost for manual workers in the construction sector. Labour cost comprises the basic wage-rate, the cost of living allowance, and the employers' contributions to the Social Insurance, Medical, Provident, Holiday, Annual Leave with Pay, 56th Week, Redundancy and Industrial Training Funds. The index is compiled from data for the main occupations taken from the paylists of a representative sample of building contractors. The weights utilised for the compilation of the overall index are based on the wage-bill for the various occupations in April 2000.

Output Prices Index: The quarterly index measures the movements in prices charged to clients of construction work. It is based on a sample of enterprises and a list of various construction tasks for which unit prices are requested. It is used also as a deflator for the calculation of the Production index.

TRANSPORT, STORAGE AND COMMUNICATION

Turnover Value Index for Transport, Storage and Communication: The Index covers Land, Water and Air Transport activities, Supporting and Auxiliary activities, Telecommunication and Postal Services. It is compiled from data obtained in a monthly sample survey, relating to the monthly turnover of the above activities. The weights allocated to the various activities are proportional to their turnover in 2000.

New Registrations of Motor-Vehicles: The data refer to both new and second-hand vehicles. License "A" is for heavy or light goods vehicles carrying loads for reward and Licence "B" refers to vehicles carrying loads for the owner's account.

DISTRIBUTIVE TRADE

Turnover Value and Volume Indices: Turnover Value Indices are compiled from data collected in a monthly survey covering a sample of enterprises. The Indices are published for a selected number of activities according to the STS-

Regulations. The weighting figure is the turnover of the activity measured by the Distributive Trade Survey of 2000.

Turnover Volume Indices of Retail Trade are calculated by deflating Turnover Value Indices of Retail Trade by a selected number of components from the HICP.

SERVICES

Turnover Value Index: The index measures the monthly changes in turnover. It is based on a sample of enterprises active in the services sector. The turnover is collected from the enterprises monthly and the results are presented quarterly. The weights of the various enterprises are proportional to their output in 2000.

FOREIGN TRADE

Source of Data: Foreign trade statistics with non –EU countries are compiled mainly from the electronic declarations made by the importers or their agents through the computerized system of Customs Authorities (Theseas System) (for imports) and the Single Administrative Document made by exporters or their agents (for exports). The statistics on trade with EU countries are compiled from the data received via Intrastat system and VAT returns.

Total Imports include all goods entered in the statistical territory of Cyprus either for free circulation or received into customs or excise warehouses from the rest of the world with the exception of simple transit.

Imports for Home Consumption include imports of goods from non-EU countries under special trade system and arrivals of goods from EU countries in local market either directly or withdrawn from excise warehouses.

Total Exports include exports of domestic goods (domestic exports) and foreign goods (re-exports of foreign goods).

Domestic Exports are exports of goods originating in the economic territory of Cyprus; if they have been wholly obtained in it or foreign goods, which were substantially transformed in Cyprus, so that the processing confers domestic origin. Goods originally imported and having undergone only repair or minor operations which leave them essentially unchanged are not defined as domestic. Minor operations include blending, packaging, bottling, cleaning, sorting, husking and selling.

Re-exports (or foreign exports) are exports of goods originating in the rest of the world, i.e not included in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.

MONETARY STATISTICS

All Banks: These include: the Bank of Cyprus, Public Company, the Arab Bank PLC, the National Bank of Greece (Cyprus), the National Bank of Greece S.A., the Cyprus Popular Bank, the Hellenic Bank, the Alpha Bank, the Co-operative Central Bank, the Universal Bank, the Mortgage Bank of Cyprus, the Cyprus Development Bank, the Housing Finance Corporation, the Societe Generale Cyprus and the Emporiki Bank-Cyprus.

Total Liquidity consists of currency outside all banks and demand, savings and time deposits held by the domestic private sector, public corporations and municipalities, with all banks.

Money Supply (or primary liquidity) comprises currency held by the public and demand deposits.

Quasi-Money (or secondary liquidity) consists of savings, time deposits and residents' foreign currency.

Monetary Statistics relating to Co-operative Financial Institutions are published, in addition to the statistics compiled by the Central Bank, in order to give a more complete picture of short-term developments in the monetary sector. The data are compiled by the Department of Co-operative Development.

PRICES

Consumer Price Index: The index measures changes in the retail prices of goods and services consumed by private households. It is based on the price movements of a representative selection of goods and services. The prices of the various items are collected once a month, on a Thursday nearest to the middle of each month; fruit and vegetables are collected on a weekly basis (every Thursday), and rents on a monthly basis. The base year is 2005 and the weights are based on the results of the Household Consumption Expenditure survey.

Price Index of Industrial Production: The index aims to measure the variations in the average ex-factory prices of the main manufactured products sold in the home market and exported. It is compiled from data on the prices prevailing as on the first Thursday of each month (excluding discounts, commissions and excise duties), obtained from a representative sample of manufacturers. The weights of the various industries are proportional to their output in 2000.

Commercial Rent Index

The index is compiled from data collected in a sample survey covering most sectors of economic activity except agriculture, mining and quarrying, electricity, gas and water, where premises are mainly owner-occupied. The

general rent index is the weighted average of the sectoral indices. The weights are proportional to the total amount of rents paid in the various sectors in the base year 1990 derived from the various sectoral surveys.

LABOUR

Employment data are based on the results of a quarterly survey covering all establishments employing 30 or more persons and a rotating probability sample of establishments employing up to 29 persons. They refer to the average number of persons employed during the month, and part-time employees are converted into full-time equivalent on the basis of the number of hours worked. The data include working proprietors and working partners, unpaid family workers, and persons temporarily absent from work, eg. on sick leave, casual leave or vacation.

Registered Unemployment comprises all persons who are registered as unemployed at the District Labour Offices on the last day of each month, and are currently available for work. It includes persons receiving unemployment benefit under the Social Insurance Scheme as well as those not entitled to any benefit.

TOURISM

Travellers: Are all persons who pass through passport control at the ports and airports of Cyprus. The various categories of travellers are visitors, residents, and emigrants or immigrants.

Source of data: From 14.6.1991-May 1997, the statements prepared by airline and shipping companies were the main source of data for tourism and migration statistics. These statements provided information only on the total number of passengers on each flight/route. Thus from the second half of 1991-May 1997 data for most categories of travellers are based on estimations. As from June 1997 the figures for the various categories of travellers are based on the results of the Passenger Survey carried out at airports / ports by the Statistical Service.

NOTES ON THE TABLES

Seasonally Adjusted and Moving Average Series

Certain series are presented in seasonally adjusted form and as a moving average of deseasonalised figures. The seasonal adjustment factors have been derived from running the data through the Seasonal Adjustment Program of the U.S. Bureau of the Census. The reader can obtain the seasonal adjustment indices for any month by dividing the actual data by the seasonally adjusted figures, which in the tables are designated by the shorthand expression sa. In view of the smallness and openness of the Cyprus economy, irregular or erratic disturbances can have a significant impact on the behaviour of certain time series. Thus, in series where irregular factors are estimated to be important, an appropriate moving average of seasonally adjusted monthly data is also presented. The moving average is referred to by the shorthand expression ma with the span of months it covers in brackets.

Rounding may lead to slight discrepancies between the sum of individual items and the totals in some tables.

Symbols and Abbreviations Used

0	nil or less than half the final digit shown
prov. or *	provisional, preliminary or estimated figure
proj	projected
+	indicates that the data have been revised since last issue
..	not applicable
mn	million
000's	thousand
m.t.	metric ton
sq m	square metre
act	actual data
sa	seasonally adjusted data
ma	moving average
min	minimum
n.a.	not available

Currency Unit Used

1 Cyprus pound (£) = 100 cents

MANUFACTURING
Domestic Exports of Selected Manufactured Products
(excl. stores and provisions)

(£000's)

Product	Jan.-Dec. 2004	Jan.-Dec. 2005
Clothing	7.658	4.519
Pharmaceutical products	49.645	50.428
Cigarettes	11.858	7.916
Footwear	915	529
Furniture	4.189	4.822
Paper products	5.169	4.508
Halloumi and other cheese	12.112	15.905
Wine	5.218	5.293
Plastic products	4.796	4.490
Edible oils	1.906	1.544
Cement and clinker	3.337	4.779
Meat (except meat of quails)	4.139	4.007
Essential oils, perfumery and cosmetics	2.891 +	1.867
Lighting fixtures and fittings	1.192	370
Fruit and vegetable juices	4.935	4.625
Articles of iron or steel	1.148	659
Cathodes of refined copper	1.448	-
Aluminium bars, rods and profiles	3.868	4.035
Raw hides and skins	1.407	1.966
Pumps for liquids	1.123	1.403
Locust beans	892	949
Preserved fruit	577	468
Brooms, brushes, mops etc	994	1.102
Cartridges	811	1.261
Refrigerators and freezers	1.194	175
Beer	735	938
Activated natural mineral prod. (Bentonite)	2.788	2.678
Animal feeding preparations	1.107	1.066
Jewellery, goldsmiths and silversmiths ware	2.462	586
Machinery for filling, closing, sealing, labelling	843	1.229
Printed material	1.895	527
Oil and air filters for motor vehicles	1.708	2.023
Yachts and other sports and pleasure boats	1.417	1.407
Photosensitive semiconductor devices	4.172	6.803
Records, tapes and other recorded media	646	5.379
Waste and scrap	8.019	9.134
Other products	19.971	22.338
TOTAL	179.185	181.728

Note: Stores and provisions denote shipstores.

Driver	4,95	5,14	5,16	5,15	5,40	5,41	5,41

Note: The data are based on a monthly survey covering a representative sample of building contractors. They refer to the average (mean) hourly wage-rates (including the basic rate of pay and cost of living allowance) for normal hours of work, excluding overtime.

The data refer to the gross rates, before any deductions for income tax, etc. are made and they do not include the employers' contributions to Social Insurance and other funds. Apprentice workers are not covered.

Small projects	7.428	1.611.236	633.479	7.825	8.007	1.669.411	687.793	8.221

Notes:

1. Data refer to permits issued to the private sector, municipal authorities and semi-government organisations. Government projects are excluded.
2. Big projects are those with a declared area of 900m² and over.
3. The number and value of permits for all types of buildings include permits in which no volume is stated e.g. in the case of conversions.

INDICATOR	UNIT OF QUANTITY	JAN.-DEC 2004	JAN.-DEC 2005
<u>MANUFACTURING</u>			
<u>Sales of wine products (total)</u>	liq. litres	<u>24.692.917</u>	<u>26.283.741</u>
	anh. litres	<u>2.868.181</u>	<u>3.363.126</u>
Table wines	liq. litres	4.221.007	3.658.332
	anh. litres	516.406	447.471
Ordinary table wines	liq. litres	19.392.551	21.827.885
	anh. litres	2.101.656	2.737.766
Dessert and aperitif wines	liq. litres	278.201	192.452
	anh. litres	63.249	42.465
Commandaria	liq. litres	268.974	239.973
	anh. litres	69.331	64.608
Sherry	liq. litres	408.593	292.114
	anh. litres	99.037	62.754
Other wines	liq. litres	123.591	72.985
	anh. litres	18.502	8.062
<u>Grape must</u>	kilos	<u>4.099.916</u>	<u>534.635</u>
	kilos of sugar	<u>1.157.531</u>	<u>302.031</u>
<u>Issues of distilled potable alcoholic beverages (total)</u>	liq. litres	<u>3.491.369</u>	<u>2.797.868</u>
	anh. litres	<u>1.285.295</u>	<u>1.018.455</u>
Brandy	liq. litres	1.518.440	1.266.216
	anh. litres	516.086	429.879
Ouzo	liq. litres	237.347	175.612
	anh. litres	93.798	69.325
Whisky	liq. litres	40.865	24.128
	anh. litres	15.728	9.243
Liqueur	liq. litres	233.311	185.975
	anh. litres	61.132	46.339
Other (incl. gin, rum, etc.)	liq. litres	1.461.406	1.145.937
	anh. litres	598.551	463.669
