PREFACE

This report, published on a monthly basis since 1982, provides data for the newly registered motor vehicles in Cyprus, as recorded by the Department of Road Transport.

The figures in this publication refer to the motor vehicles registered in the period January-December 2016 and are classified by category, make, type of fuel used, new or used, engine cubic capacity, country of manufacture and other vehicle characteristics.

Sincere thanks and appreciation are extended to the Department of Road Transport for their cooperation and for providing the necessary data for this report.

The report has been prepared by Mr. I. Iona and Mrs. A. Milidoni of the Transport Statistics Unit, under the supervision of Mr. Pantelis Protopapas, Head of the Business, Energy, Environment and Science and Technology Statistics Division. The preparation of the necessary computer programmes for the processing of data was under the general supervision of Mr. Y. Karashialis.

George Chr. Georgiou Director Statistical Service

INTRODUCTION

- (a) <u>The total registrations</u> of motor vehicles increased by 31,4% to 33.805 in January-December 2016, from 25.735 in January-December 2015.
- (b) <u>Passenger saloon cars</u> increased to 27.956 from 21.462 in January-December 2015, i.e. there was an increase of 30,3%. Of the total passenger saloon cars, 12.468 or 44,6% were new and 15.488 or 55,4% were used cars, compared to 47,0% and 53,0% respectively in the corresponding period of the previous year.
- (c) <u>Motor coaches and buses</u> registered in January-December 2016 increased to 133, from 82 in the same period of 2015.
- (d) <u>Goods conveyance vehicles</u> increased by 42,5% to 3.072 in January-December 2016, compared to 2.156 in January-December 2015.

Light goods vehicles increased by 36,3% to 2.585 in January-December 2016, from 1.896 in January-December 2015.

Heavy goods vehicles increased by 59,7% to 297 in January-December 2016, from 186 in January-December 2015.

<u>**Road tractors**</u> (units of trailers) increased by 156,8% to 190 in January-December 2016, from 74 in January-December 2015.

- (e) <u>Mopeds < 50cc</u> increased by 24,7% to 192 in January-December 2016, compared to 154 in January-December 2015.
- (f) <u>Mechanised cycles > 50cc</u> increased by 37,7% to 2.303, compared to 1.673 in January-December 2015.
- (g) European Union member countries were the <u>main suppliers of motor vehicles</u> in Cyprus during 2016. The EU accounted for 56,4% of the total registrations, while Japan's share stood at 30,3%.

DEFINITIONS OF TERMS USED

1 Road vehicle

A vehicle running on wheels and intended for use on roads.

2 Stock of road vehicles

Number of road vehicles registered at a given date in a country and licensed to use roads open to public traffic. *This includes road vehicles exempted from annual taxes or license fees; it also includes imported second-hand vehicles and other road vehicles according to national practices. Military vehicles are excluded.*

3 National road vehicle

A road vehicle registered in the reporting country and bearing registration plates of that country or having been separately registered (trams, trolleybuses, etc.).

4 Foreign road vehicle

A road vehicle registered in a country other than the reporting country and bearing registration plates of that foreign country.

5 (Bi)cycle

A road vehicle which has two or more wheels and generally is propelled solely by the muscular energy of the persons on that vehicle, in particular by means of a pedal system, lever or handle (e.g. bicycles, tricycles, quadricycles and invalid carriages). *Included are cycles with supportive power unit.*

6 Road motor vehicle

A road vehicle fitted with an engine whence it derives its sole means of propulsion, which is normally used for carrying persons or goods or for drawing, on the road, vehicles used for the carriage of persons or goods. *The statistics exclude motor vehicles running on rails*.

7 Passenger road vehicle

A road vehicle designed, exclusively or primarily, to carry one or more persons.

8 Passenger road motor vehicle

A road motor vehicle, exclusively designed or primarily, to carry one or more persons.

Included are: a) Motorcycles b) Mopeds c) Passenger cars d) Vans designed and used primarily for transport of passengers e) Taxis f) Hire cars g) Ambulances h) Buses, coaches and minibuses i) Tram j) Motor Homes. Excluded are light goods vehicles, cf. definition 20.

9 Moped

Two, three or four-wheeled road motor vehicle which is fitted with an engine having a cylinder capacity of less than 50cc (3.05 cu.in) and a maximum authorized design speed in accordance with national regulations.

10 Motorcycle

Two-, three- or four-wheeled road motor vehicle not exceeding 400 kg (900 lb) of unladen weight. All such vehicles with a cylinder capacity of 50 cc or over are included, as are those under 50 cc which do not meet the definition of moped.

11 Passenger car

Road motor vehicle, other than a moped or a motor cycle, intended for the carriage of passengers and designed to seat no more than nine persons (including the driver). *Included are:*

- a) Passenger cars
- b) Vans designed and used primarily for transport of passengers
- c) Taxis
- d) Hire cars
- e) Ambulances
- f) Motor homes.

Excluded are light goods road vehicles, cf. definition 20, as well as motor-coaches and buses, cf. definitions 15, and mini-buses/mini-coaches, cf. definitions 17.

12 Taxi

Licensed passenger car for hire with driver without predetermined routes. *The method of hire is normally: a) Flagging down on the street b) Picking up at a designated taxi rank*

c) Telephoning for collection.

13 Caravan

Road vehicle designed as living accommodation for haulage by a motor vehicle. A caravan is mainly intended for recreational purposes. It is not used for carriage of goods or passengers. Excluded are tent trailers with a built-in tent : they are considered as a trailer for the transport of goods.

14 Motor-coach, mini-coach, bus or mini-bus

Passenger road motor vehicle designed to seat more than nine persons (including the driver). *Included are mini-buses and mini-coaches designed to seat more than 9 persons (including the driver).*

15 Bus

Passenger road motor vehicle designed to carry more than 24 persons (including the driver), and with provision to carry seated as well as standing passengers.

The vehicles may be constructed with areas for standing passengers, to allow frequent passenger movement, or designed to allow the carriage of standing passengers in the gangway.

16 Motor coach

Passenger road motor vehicle designed to seat 24 or more persons (including the driver) and constructed exclusively for the carriage of seated passengers.

17 Mini-bus / mini-coach

Passenger road motor vehicle designed to carry 10-23 seated or standing persons (including the driver).

The vehicles may be constructed exclusively to carry seated passengers or to carry both seated and standing passengers.

18 Passenger carrying capacity of motor coaches, buses and trolleybuses

Number of seats/berths and standing places, including the driver's, available in the vehicle when it is performing the service for which it is primarily intended.

In case of doubt, the highest number of seats/berths available should be taken into account.

19 Goods road vehicle

Road vehicle designed, exclusively or primarily, to carry goods.

Included are:

a) Light goods road vehicles with a gross vehicle weight of not more than 3 500 kg, designed exclusively or

primarily, to carry goods, e.g. vans and pick-ups

b) Heavy goods road vehicles with a gross vehicle weight above 3 500 kg, designed, exclusively or primarily, to

carry goods

c) Road tractors

d) Agricultural tractors permitted to use roads open to public traffic.

20 Light goods road vehicle

Goods road vehicle with a gross vehicle weight of not more than 3 500 kg, designed, exclusively or primarily,

to carry goods.

Included are vans designed for and used primarily for transport of goods, pick-ups and small lorries with a gross vehicle weight of not more than 3 500 kg.

21 Heavy goods road vehicle

Goods road vehicle with a gross vehicle weight above 3 500 kg, designed, exclusively or primarily, to carry goods

22 Types of body of goods road vehicle

Classification of goods road vehicles by types of their superstructures.

The following classification of types of bodies of goods road vehicles is considered:

a) Ordinary open box

- With cover
- Flat
- b) Tipper
- c) Tanker

Solid bulk
Liquid bulk
d) Temperature controlled box
e) Other closed box
f) Skeletal container and swap-body transporter
g) Livestock transporter
h) Others.

23 Goods road motor vehicle

Any single road motor vehicle designed to carry goods (e.g. a lorry), or any coupled combination of road vehicles designed to carry goods, (i.e. lorry with trailer(s), or road tractor with semi-trailer and with or without trailer).

24 Lorry / truck

Rigid road motor vehicle designed, exclusively or primarily, to carry goods.

25 Road tractor

Road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power-driven (mainly semi-trailers).

Agricultural tractors are excluded.

26 Agricultural tractor

Motor vehicle designed exclusively or primarily for agricultural purposes whether or not permitted to use roads opened to public traffic.

27 Trailer

Goods road vehicle designed to be hauled by a road motor vehicle.

This category excludes agricultural trailers and caravans.

achizurg achizurg

28 Agricultural trailer

Trailer designed exclusively or primarily for agricultural purposes and to be hauled by an agricultural tractor, whether or not permitted to use roads opened to public traffic.

29 Semi-trailer

Goods road vehicle with no front axle designed in such way that part of the vehicle and a substantial part of its loaded weight rests on a road tractor.

30 Articulated vehicle

Road tractor coupled to a semi-trailer.

31 Road train

Goods road motor vehicle coupled to a trailer

Articulated vehicle with a further trailer attached is included.

32 Special purpose road motor vehicle

Road motor vehicle designed for purposes other than the carriage of passengers or goods. *This category includes:*

- *a) Fire brigade vehicles*
- b) Mobile cranes
- *c)* Self-propelled rollers
- d) Bulldozers with metallic wheels or track
- e) Vehicles for recording fi lm, radio and TV broadcasting
- f) Mobile library vehicles
- g) Towing vehicles for vehicles in need of repair
- \tilde{h}) Other special purpose road motor vehicles.

33 Load capacity

Maximum weight of goods declared permissible by the competent authority of the country of registration of the vehicle.

34 Load volume

Maximum volume available in the vehicle (e.g. measured in cubic metres) for the carriage of goods.

35 Floor area within vehicle body

Maximum floor area within the vehicle body (e.g. measured in square metres) available for the carriage of goods.

36 Gross vehicle weight (Legally permissible maximum weight)

Total of the weight of the vehicle (or combination of vehicles) including its load when stationary and ready for the road declared permissible by the competent authority of the country of registration.

This includes the weight of the driver and the maximum number of persons permitted to be carried.

37 Age of road vehicle

Length of time after the first registration of the road vehicle, irrespective of the registering country.

38 Cylinder capacity

The cylinder capacity of the engine as certified by the competent authority of the country of registration.

39 Unladen vehicle weight

Weight of vehicle (or combination of vehicles) excluding its load when stationary and ready for the road, as determined by the competent authority of the country of registration.

40 Motor energy

The principal type of motor energy used by the vehicle as certified by the competent authority of the country of registration.

For hybrid or dual-fuelled vehicles adapted for using more than one type of motor energy (e.g. LPG and petrol, or electricity and diesel, etc.), the principal type of motor energy should be, where possible, an alternative fuel.

41 Alternative fuel

A type of motor energy other than the conventional fuels, petrol and diesel.

Alternative fuels include electricity, LPG, natural gas (NGL or CNG), alcohols, mixtures of alcohols with other fuels, hydrogen, biofuels (such as biodiesel), etc. (This list is not exhaustive.) Alternative fuels do not include unleaded petrol, reformulated petrol or city (low-sulphur) diesel.

42 Date of first registration of motor vehicle

The date of first registration of a motor vehicle is the first-time registration of the vehicle as new in a Motor Vehicle Register, irrespective of the nationality of the register.

The dating of the registration is the date on which the registration was recorded at the Motor Vehicle Registration Office.

The registration of an imported second-hand vehicle is not a first-time registration but should be regarded as a re-registration.

                                                                                                                                                                                                                                                                                                                                                                                                              | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                  | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 0                                                                                                                                                                                                                                                                                                                                                                                                                  | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 0                                                                                                                                                                                                                                                                                                                                                                                                                     | 11                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 11
