## PRESS RELEASE

### CONSUMER PRICE INDEX (CPI): February 2026

#### **Inflation 0,1%**

Consumer Price Index in February 2026 decreased by 0,12 points, reaching 99,86 units compared to 99,98 units in January 2026. Inflation in February 2026 increased at a rate of 0.1%. (Table 1)

The largest positive change among the economic categories compared with February 2025 was recorded in *Agricultural Products* (4,2%), while the largest negative changes was observed in *Electricity and Water* (-9,3%). Compared with January 2026, the biggest change was in *Electricity and Water* (-2,5%).(Table 2)

### **Analysis of Percentage Changes**

Compared with February 2025, the largest changes were observed in the categories *Clothing and Footwear* (-6,8%), *Restaurants and Accommodation Services* (4,7%), *Educational Services* (3,7%), and *Transport* (-3,7%). (Table 1)

In relation to January 2026, the largest changes were recorded in the categories *Clothing and Footwear* (0,8%), *Recreation, Sports and Culture* (-0,5%), and *Food and Non-Alcoholic Beverages* (-0,4%). (Table 1)

### **Analysis of Effects in Units**

The largest positive contribution to the change in the CPI of February 2026 compared with February 2025 was recorded in the categories *Restaurants and Accommodation Services* (3,21), *Recreation, Sports and Culture* (2,70), and *Alcoholic Beverages and Tobacco* (1,86), while the largest negative contribution to the CPI change of February 2026 compared with February 2025 was observed in the categories *Health* (-2,64), *Information and Communication* (-1,60), and *Clothing and Footwear* (-1,15). (Table 3)

The largest impact on the month-to-month changes in the CPI in February 2026 compared with January 2026 was recorded in the categories *Food and Non-Alcoholic Beverages* (-0,08), *Clothing and Footwear* (0,05), *Housing, Water, Electricity, Gas and Other Fuels* (-0,04), and *Recreation, Sports and Culture* (-0,04). (Table 3)

The largest positive contribution to the change in the CPI of February 2026 compared with February 2025 was attributed to *Catering Services* (2,82), while the largest negative contribution was attributed to *Petrol* (-2,28). (Table 4)

*Clothing* (0,06) had the largest positive impact on the change in the CPI of February 2026 compared with the corresponding index of January 2026, while *Vegetables* (-0,19) had the largest negative impact. (Table 5)

**Table 1**

<b>Categories of Goods and Services</b>	<b>CPI (2025=100)</b>		<b>Change (%)</b>		
	<b>January 2026</b>	<b>February 2026</b>	<b>Feb 26 / Feb 25</b>	<b>Feb 26 / Jan 26</b>	<b>Jan – Feb 26 / Jan – Feb 25</b>
Food and Non-Alcoholic Beverages	103,11	102,67	2,36	-0,43	2,68

Petrol	-0,03
Various Other Goods and Services	-0,05
<b>TOTAL</b>	<b>-0,12</b>

## **METHODOLOGICAL INFORMATION**

### **Definitions**

The **Consumer Price Index (CPI)** is compiled to measure the changes of prices over time of consumer goods and services acquired, used or paid by households. Specifically, the national CPI of Cyprus covers the consumption expenses of specific goods and services (shopping basket of goods and services), of the resident households and of the households that intend to live in Cyprus for at least one year. CPI is the official index for the estimation of inflation.

The **Inflation** shows the change of the CPI when compared with the index of the corresponding month of the previous year.

The **Effect** represents the amount of the overall change in the General Index which is accounted for by any given category/product/service.

### **Price Collection**

The price collection is carried out only in urban districts of Nicosia, Larnaca, Limassol and Paphos. For each city, the fluctuations in the product and services prices for each month, are weighted according to their population. Specifically, the weights for the four districts are: Nicosia 40%, Limassol 30%, Larnaca 18% and Paphos 12%.

The prices of 850 goods and services, which are included in the CPI, are recorded once every month, except for some seasonal products (e.g., vegetables and fruit), meat and fuels, for which prices are collected every week (every Thursday).

### **Base Year**

From January 2026 onwards, the base year is 2025=100. The index reference period was 2015=100 for the period between January 2016 and December 2025.

### **Classification**

Until December 2025, ECOICOP classification was used for the calculation and the dissemination of the CPI. From January 2026 onwards, CYPSTAT adopts the ECOICOP ver.2 classification. The lowest level of detail for the classification used in CPI is COICOP 5-digits level of analysis.

### **Products/Services and Weights**

From January 2026 onwards, the products included in the CPI as well as their corresponding weights have been revised. The revision was based on the results of the Household Budget Survey 2023.
