## PRESS RELEASE

### CONSUMER PRICE INDEX (CPI): JUNE 2025

#### **Inflation -0,4%**

The Consumer Price Index (CPI) in June 2025 decreased by 0,29 points, reaching 117,28 units compared to 117,57 units in May 2025. Inflation in June 2025 decreased at a rate of 0,4%. (Table 1)

The largest positive change among the economic categories compared with June 2024 was recorded in Services (3,9%), while the largest negative changes were observed in Electricity (-10,3%) and Petroleum Products (-9,2%). In comparison with May 2025, the largest change was recorded in Agricultural Products (-4,8%). (Table 2)

### **Analysis of Percentage Changes**

Compared with June 2024, the largest changes were recorded in the categories *Restaurants and Hotels* (5,5%), *Clothing and Footwear* (-5,2%), and *Recreation and Culture* (5,1%). (Table 1)

In comparison with May 2025, the largest changes were observed in the categories *Food and Non-Alcoholic Beverages* (-2,3%) and *Restaurants and Hotels* (1,1%). (Table 1)

For the period January – June 2025, compared to the corresponding period of the previous year, the largest changes were noted in the categories *Clothing and Footwear* (-5,6%), *Restaurants and Hotels* (4,7%), and *Education* (3,7%). (Table 1)

### **Analysis of Effects in Units**

The largest positive impact on the change of the CPI in June 2025 compared with June 2024 was recorded in the categories *Restaurants and Hotels* (0,59) and *Recreation and Culture* (0,33), while the largest negative impact was recorded in the category *Transport* (-0,77). (Table 3)

The largest impact on the change of the CPI in June 2025 compared with May 2025 was recorded in the category *Food and Non-Alcoholic Beverages* (-0,54). (Table 3)

The largest positive impact on the change of the CPI in June 2025 compared with the index of June 2024 was recorded in *Catering Services* (0,60), while the largest negative impact was recorded in *Petroleum Products* (-1,01). (Table 4)

*Catering Services* (0,11) had the largest positive impact on the change of the CPI in June 2025 compared with the corresponding index of May 2025, while *Fresh Vegetables* (-0,32) had the largest negative impact. (Table 5)

**Table 1**

<b>Categories of Goods and Services</b>	<b>CPI (2015=100)</b>		<b>Change (%)</b>		
	<b>May 2025</b>	<b>June 2025</b>	<b>June 25/ June 24</b>	<b>June 25/ May 25</b>	<b>Jan- June 25/ Jan- June 24</b>

<b><i>Negative Effect</i></b>	
Fresh Vegetables	-0,32
Fresh Fruit	-0,11
Potatoes	-0,06
Various Other Goods and Services	-0,06
<b>TOTAL</b>	<b>-0,29</b>

## **METHODOLOGICAL INFORMATION**

### **Definitions**

The **Consumer Price Index (CPI)** is compiled to measure the changes of prices over time of consumer goods and services acquired, used or paid by households. Specifically, the national CPI of Cyprus covers the consumption expenses of specific goods and services (shopping basket of goods and services), of the resident households and of the households that intend to live in Cyprus for at least one year. CPI is the official index for the estimation of inflation.

The **Inflation** shows the change of the CPI when compared with the index of the corresponding month of the previous year.

The **Effect** represents the amount of the overall change in the General Index which is accounted for by any given category/product/service.

### **Price Collection**

The price collection is carried out only in urban districts of Nicosia, Larnaca, Limassol and Paphos. For each city, the fluctuations in the product and services prices for each month, are weighted according to their population. Specifically, the weights for the four districts are: Nicosia 42%, Limassol 30%, Larnaca 18% and Paphos 10%.

The prices of 805 goods and services, which are included in the CPI, are recorded once every month, except for some seasonal products (e.g vegetables and fruit), meat and fuels, for which prices are collected every week (every Thursday).

### **Base Year**

The index reference period was 2005=100 for the period between January 2006 and December 2015. From January 2016 and onwards, the base year is 2015=100.

### **Classification**

Until December 2015, COICOP 4 classification up to four digits level of analysis, was used for the calculation and the dissemination of the CPI. From January 2016 and onwards, CYSTAT is adopting the ECOICOP classification satisfying relevant European Union Regulation. Consequently, the lowest level of detail for the classification used in CPI is COICOP 5-digits level of analysis.

### **Products/Services and Weights**

From January 2018 and onwards, the products included in the CPI as well as their corresponding weights have been revised. The revision was based on the results of the Household Budget Survey 2015/2016.
