## PRESS RELEASE

### **INTERNATIONAL DAY OF EDUCATION 2023**

On the occasion of the **International Day of Education**, which takes place each year on January 24 throughout the world, the Statistical Service of Cyprus publishes an Infographic on "[Young Adults and Education 2021](#)". In Cyprus, the percentage of young people aged 25-34 with the highest educational level below High School was 9,9%, with a High School level of 31,8% and a Tertiary Education level of 58,3%. Business Administration and Law, Arts and Humanities and Social Sciences, Journalism and Information were the three most popular fields of study among all Tertiary Education graduates of this age group.
