**Exports of foreign products, including stores and provisions, were €71,8 mn in January 2025** as compared to €168,2 mn in January 2024, recording a decrease of 57,3%.

More data are published in the monthly publication 'Intra – Extra EU Trade Statistics (Summarised Data) – January 2025' and in the online database CYPSTAT-DB, under the subtheme External Trade.

**Table**

<b>Year and Month</b>	<b>Total Imports €000's</b>	<b>Total Exports €000's</b>
<b><u>2025</u></b>		
February	1.027.207	476.367
January	1.133.464	436.905
<b><u>2024</u></b>	<b>12.400.565</b>	<b>4.154.095</b>
December	1.341.371	367.861
November	1.150.430	378.303
October	1.258.134	443.935
September	962.778	351.158
August	975.470	288.500
July	1.066.459	326.752
June	920.281	452.530
May	1.060.066	343.620
April	1.106.750	352.366
March	828.143	263.114
February	863.680	274.127
January	867.003	311.828

Note: Imports data for the months October 2024 and January 2025 have been revised. Exports data for the months July 2024 and January 2025 have been revised. Data for February 2025 are provisional.

## **METHODOLOGICAL INFORMATION**

### **Statistical Value**

The statistical value is the value of the goods at the time and place they cross the border of Cyprus.

### **Domestic and Foreign Goods**

**Domestically produced goods** are goods wholly obtained in Cyprus or goods produced in another country but their last economically substantial processing or processing that led to the manufacture of a new product or representing an important stage of manufacture, took place in Cyprus. Goods that were originally imported and have undergone repair or other minor operations which leave them essentially unchanged are not defined as domestic.

**Foreign goods** are goods which were not produced in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.

### **Partner Country**

**Intra-EU exports** and **extra-EU exports** are classified by the Member State of the EU and country of final destination of the goods, respectively. The last country to which the goods are known to be specifically directed on their outward movement from the reporting country is regarded as their final destination.

For **extra-EU imports**, the trading partner is the country of origin. In general, goods obtained entirely from a given country originate in that country. A product in the production of which two or more countries are involved, is considered as originating in the country in which the last substantial, economically justified transformation or processing took place, resulting in the manufacture of a new product or representing an important stage of manufacture.

For **intra-EU imports**, the trading partner is the Member State of consignment of the goods.

The United Kingdom is considered as an extra-EU partner country for the EU. Imports from the United Kingdom are recorded by country of consignment until 31 December 2020. As of January 2021 onwards, for trade with Northern Ireland imports are recorded by country of consignment while for trade with the United Kingdom (excluding Northern Ireland) imports are recorded by country of origin. For these reasons data on trade with the United Kingdom are not fully comparable with data on trade with other extra-EU trade partners for reference periods before and after the end of 2020.
