## PREFACE

This report is issued on a monthly basis and aims at providing a general view of the external trade of Cyprus and its partner countries for October 2022. It is divided into three parts. Part A pertains to total trade statistics under the general trade system, part B to extra-EU trade statistics under the special trade system and part C to intra-EU trade statistics. All values shown in the tables of this report are in euros.

The statistics on the trade of goods with non-EU countries (extra-EU trade) are compiled mainly from the computerized systems of the customs authority for imports (“Theseas” system) and for exports. The statistics on the trade of goods with EU countries (intra-EU trade) are compiled mainly via the Intrastat system and the data collected via the VAT returns.

This report was prepared by Mrs. Ioanna Leontiou, Statistics Officer, under the guidance of Mr. Sofronis Vikis, Senior Statistics Officer and the general supervision of Mr. Pantelis Protopapas, Head of the Business, Energy, Environment, Agriculture, Science and Technology and Foreign Trade Statistics Division.

The valuable cooperation of the Department of Customs and Excise and the Tax Department is acknowledged.

## DEFINITIONS OF TERMS USED

### Intra-EU imports

Intra-EU imports include:

- (i) Union goods, except goods which are in transit between Member States;
- (ii) non-Union goods formerly placed in the Member State of export under the inward processing customs procedure, which are maintained under the inward processing customs procedure or released for free circulation in the Member State of import.
- (iii) Some goods movements are included in statistics based on specific conditions e.g. aircraft and ships whose economic ownership has been transferred from a person established in another Member State to a person established in Cyprus are included in intra-EU imports statistics.

### Intra-EU exports

Intra-EU exports include:

- (i) Union goods, except goods which are in transit between Member States;
- (ii) non-Union goods placed in the Member State of export under the inward processing customs procedure.
- (iii) Some goods movements are included in statistics based on specific conditions e.g. aircraft and ships whose economic ownership has been transferred from a person established in Cyprus to a person established in another Member State are included in intra-EU exports statistics.

### Commodity classification

The commodity classification is based on the Harmonised Commodity Description and Coding System (HS) or more simply the Harmonised System or HS (6 digits level) and includes more than 5.000 six-digit codes.

The Harmonised System is a legal instrument and was adopted by the Customs Co-operation Council (now the World Customs Organisation) in June 1983 and the International Convention on the Harmonised System (HS Convention) entered into force on the 1st January 1988. The HS is a nomenclature comprising of headings and sub-headings and their related numerical codes, sections, chapters as well as notes and general rules for its interpretation.

Most detailed results are available by the sub-headings of the Combined Nomenclature (CN), which includes nearly 10.000 eight-digit codes.

The structure of the HS and the CN classifications (for the reference year 2022) is illustrated in the following table:

Nomenclature	Levels of breakdown	Code	Number
Harmonised System (HS)	Section	One digit	21
	Chapter	Two digits	98
	Heading	Four digits	1233
	Sub-Heading	Six digits	5621
Combined Nomenclature (CN)	Sub-Heading	Eight digits	9736

## Country classification

The classification of countries is based on the nomenclature of countries and territories, as set out in the Commission Implementing Regulation (EU) 2020/1470. From January 1999, the United Nations ISO alpha-2 coding system is followed, in which each country is identified by a two-letter code.

## Partner country

In this publication, **intra-EU exports** and **extra-EU exports** are classified by the Member State and country of final destination of the goods, respectively. The last country to which the goods are specifically directed on their outward movement from the reporting country is regarded as their final destination. This is not necessarily the country in which the good will be unshipped or that in which they will be finally consumed.

For **extra-EU imports**, the trading partner is the country of origin. In general, goods obtained entirely from a given country originate in that country. A product in the production of which two or more countries were involved, is considered as originating in the country in which the last substantial transformation or processing took place. Packing, repacking and sorting are not regarded as manufacturing processes.

For **intra-EU imports**, the trading partner is the Member State of consignment of the goods. This is the Member State from which the goods were dispatched without halt or legal formality in another country apart from any transport reasons. Conversely, if there was such an operation in another country, that country becomes the Member State of consignment.

The United Kingdom is considered as an extra-EU partner country for the EU. Imports from the United Kingdom are recorded by country of consignment until the end of the transitory period (31 December 2020). As of January 2021 onwards, data on trade with the United Kingdom is based on a mixed concept. In application of the Withdrawal Agreement Protocol on Ireland / Northern Ireland, for trade with Northern Ireland the statistical concepts applicable are the same as those for trade between Member States (imports are recorded by country of consignment) while for trade with the United Kingdom (excluding Northern Ireland) the same statistical concepts are applicable as for trade with any other extra-EU partner country (imports are recorded by country of origin). For these reasons data on trade with the United Kingdom are not fully comparable with data on trade with other extra-EU trade partners, and for reference periods before and after the end of 2020.

## Trade systems

There are broadly two approaches, closely linked with customs procedures, used for the measurement of international trade in goods: the general trade system and the special trade system.

### *General trade system*

The general trade system is the wider concept and under it the recorded aggregates include goods entering or leaving the economic territory of Cyprus with the exception of simple transit trade or transhipment of goods. Quasi transit trade is included in general imports and exports statistics. In particular, goods which are received into customs warehouses are recorded as imports at that stage whether or not they subsequently go into free circulation in Cyprus. Similarly, outgoing goods from customs warehouses are included in the general trade aggregates at the time they leave Cyprus.

### *Special trade system*

The special trade system is a narrower concept. Goods from a non-EU country which are received into customs warehouses are not recorded in the special trade aggregates unless they subsequently go into free circulation in Cyprus (or are placed under the customs procedures for inward processing). Similarly, outgoing goods from customs warehouses are not recorded as exports.

### **Stores and provisions**

Stores and provisions denote vessels and aircraft stores and supplies. Vessels and aircraft stores mean the various products for consumption by the crew and passengers. Vessels and aircraft supplies means the products for the operation of the engines, machines and other equipment on vessels or aircraft, such as fuel, oil and lubricants.

### **Domestic and foreign goods**

**Domestic goods** are goods originating in the economic territory of Cyprus; if they have been wholly obtained in it or were substantially transformed by processing in it, so that the processing confers domestic origin. Goods originally imported and having undergone only repair or minor operations, which leave them essentially unchanged are not defined as domestic. Minor operations include packaging, bottling, cleaning, sorting etc.

**Foreign goods** are goods originating in the rest of the world, i.e. not included in the economic territory of Cyprus and compensating goods obtained under the outward processing procedure when such processing confers foreign origin.

### **Sources of additional information:**

External trade statistics publications in PDF format are disseminated each month to the general public free of charge from the CYSTAT portal (theme ‘External Trade’, [Publications](#))

Enquiries are welcome. More details on intra-EU and extra-EU statistics can also be obtained by phone, fax, post or personal visit to: Statistical Service of Cyprus

The Portal also provides access to all of CYSTA's announcements, to the online database of CYSTAT (CYSTAT DB), to electronic publications (pdf), to information about the Statistical Service, to the Official Statistics Law, to a Publications Catalogue containing details of the publications issued by the Statistical Service since its establishment, and to links to the Other National Authorities. In addition, the Portal contains the "Annual Release Calendar" which presents the release dates of short-term statistics.

Data and electronic publications (pdf) are available on the Portal free of charge. Paper publications are obtainable from the central offices of the Statistical Service in Lefkosa and from the Printing Office of the Republic of Cyprus.

## **European Statistical Data Support (ESDS)**

All the information contained on the website of Eurostat (<https://ec.europa.eu/eurostat>) is available free of charge to all users. Among others, the website offers access to statistical data contained in Eurostat's databases as well as to the publications of Eurostat in electronic format (pdf).

Eurostat set up with all Member States a network of support centers. Their mission is to provide help and guidance to Internet users of European statistical data, thus to all users of Eurostat's website.

As from January 2005 the Statistical Service of Cyprus (CYSTAT) has set up the Centre of European Statistical Data Support (ESDS) which provides, on behalf of Eurostat, free of charge support on EU data for the following:

- Information on availability of data/ publications
- Verification of data
- Methodological information
- Technical support

Users may contact the ESDS Centre via:

- CYSTAT's Portal under the section Services / European Statistical Data Support (ESDS)
- email: [eustatistics@cystat.mof.gov.cy](mailto:eustatistics@cystat.mof.gov.cy)
- telephone: +357-22605151
- fax: +357-22661313

The service is available daily during the working hours of the Cyprus Civil Service.
