METHODOLOGICAL INFORMATION

Scope and Coverage

The collection of data on Imports, Sales and Stocks of Petroleum Products is carried out on a monthly basis.

It concerns the sales of petroleum products from filling stations and the sales to government departments, to the British Bases and the United Nations, to ships and to other customers, as well as the stocks held at the end of each month. Only the petroleum companies are being covered. Additionally, the imports of petroleum products imported directly from the Electricity Authority of Cyprus (EAC) and the manufacturing industry are also included.

Data Collection

The collection of data is conducted by the Statistical Service on a monthly basis by electronically receiving a purpose-designed questionnaire from each of these companies.
