PRESS RELEASE

INDUSTRIAL PRODUCTION INDEX: AUGUST 2025

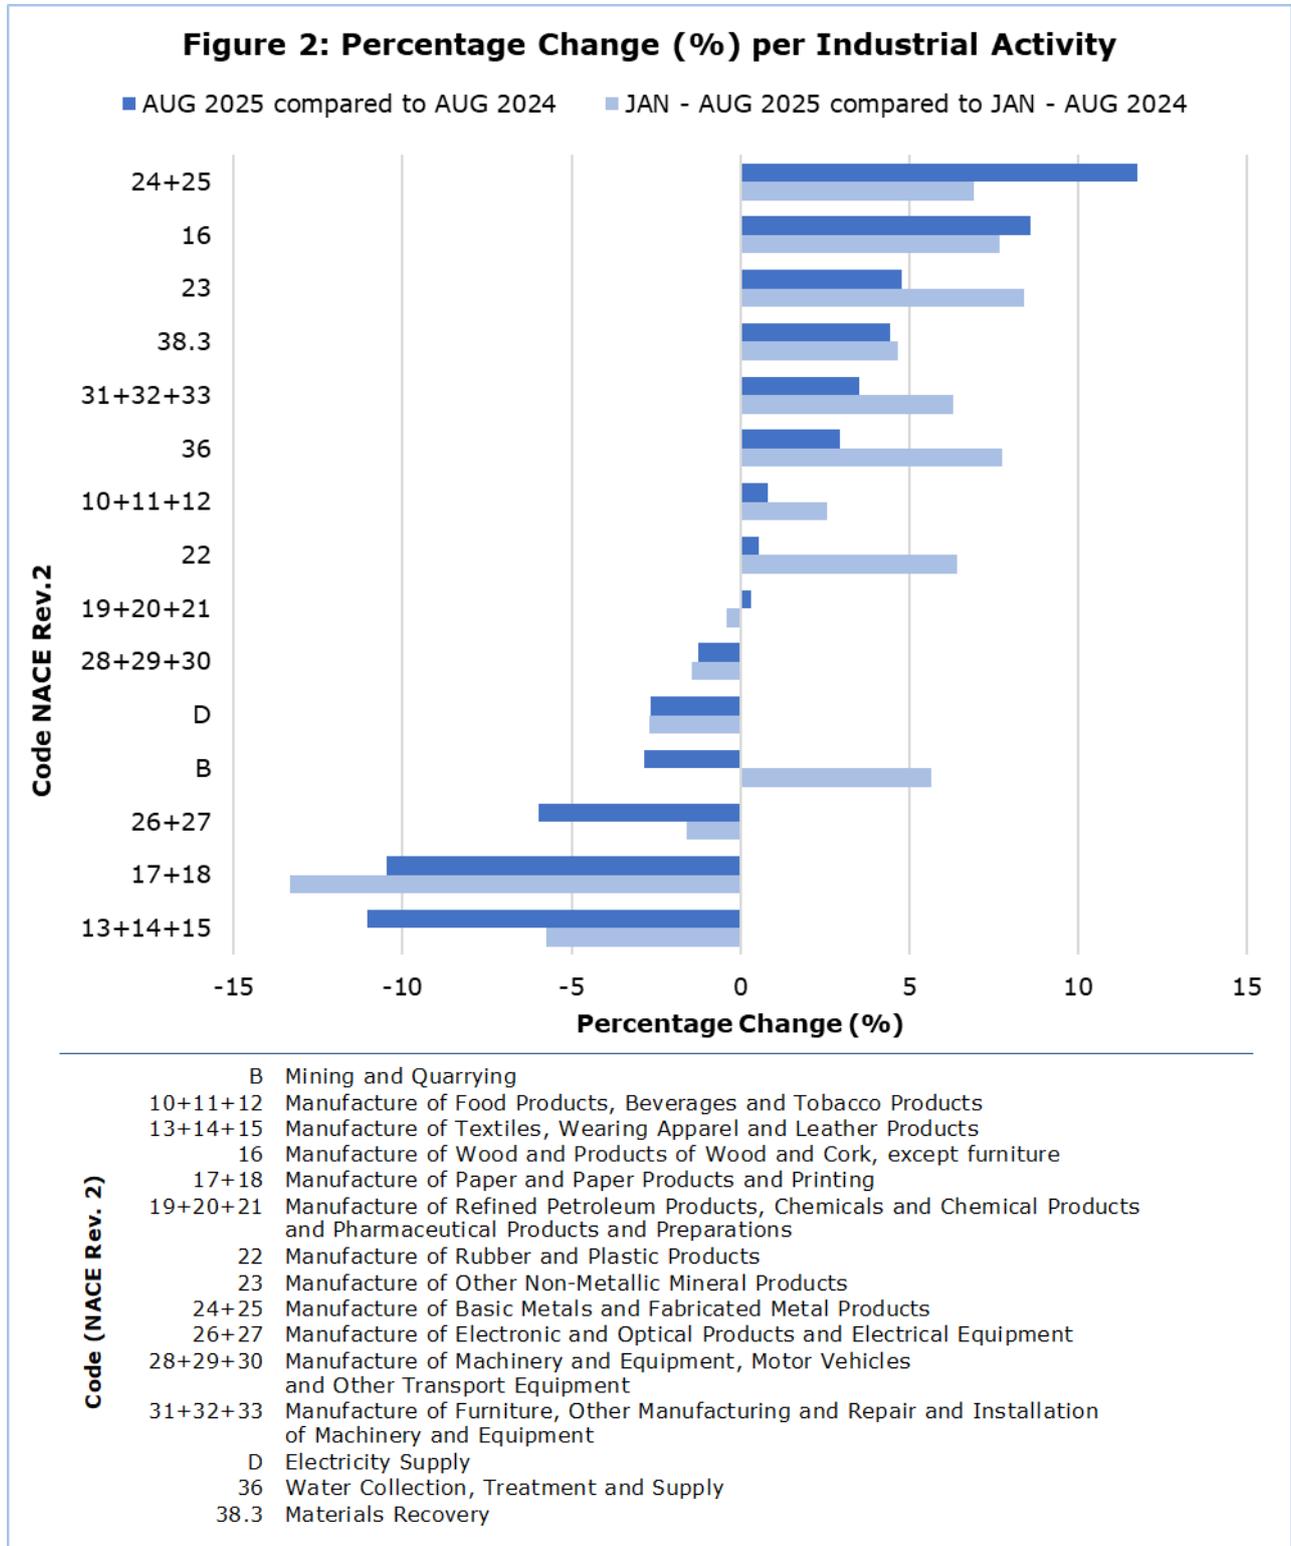

Annual Change +0,8%

In August 2025, the Industrial Production Index reached 91,1 units (base 2021=100), recording an increase of 0,8% compared to August 2024. For the period January – August 2025, the index recorded an increase of 2,8% compared to the corresponding period of the previous year.

The manufacturing sector registered an increase of 1,7% compared to August 2024. An increase was also observed in water supply and materials recovery (+3,3%). Negative changes were observed in mining and quarrying (-2,8%) and the electricity supply sector (-2,6%).

In the manufacturing sector, the most significant positive changes compared to August 2024 were observed in the manufacturing of basic metals and fabricated metal products (+11,8%), the manufacturing of wood and products of wood and cork, except furniture (+8,6%) and the manufacturing of other non-metallic mineral products (+4,8%). The most important negative changes were observed in the manufacturing of textiles, wearing apparel and leather products (-11,1%) and paper and paper products and printing (-10,5%).

Comparing the rates of change for the period January – August 2025 against the corresponding period of the previous year, the most significant positive changes were observed in the manufacturing of other non-metallic mineral products (+8,4%), water collection, treatment and supply (+7,8%), the

manufacturing of wood and products of wood and cork, except furniture (+7,7%), the manufacturing of basic metals and fabricated metal products (+6,9%), the manufacturing of rubber and plastic products (+6,4%) and the manufacturing of furniture, other manufacturing and repair and installation of machinery and equipment (+6,3%). The activities where the most significant negative changes in production were registered compared to the period January – August 2024 were those relating to the manufacturing of paper and paper products and printing (-13,3%), the manufacturing of textiles, wearing apparel and leather products (-5,8%) and electricity supply (-2,7%).

Table

Code (NACE Rev. 2)	Economic Activity	Index (2021=100)	Percentage Change (%)	
		Aug 2025	Aug 2025/2024	Jan-Aug 2025/2024
B	MINING AND QUARRYING	75,2	-2,8	5,7
C	MANUFACTURING	81,9	1,7	3,4
10+11+12	Manufacture of Food Products, Beverages and Tobacco Products	109,8	0,8	2,6
13+14+15	Manufacture of Textiles, Wearing Apparel and Leather Products	65,9	-11,1	-5,8
16	Manufacture of Wood and Products of Wood and Cork, except furniture	26,5	8,6	7,7
17+18	Manufacture of Paper and Paper Products and Printing	44,4	-10,5	-13,3
19+20+21	Manufacture of Refined Petroleum Products, Chemicals and Chemical Products and Pharmaceutical Products and Preparations	89,6	0,3	-0,4
22	Manufacture of Rubber and Plastic Products	72,0	0,6	6,4
23	Manufacture of Other Non-Metallic Mineral Products	74,2	4,8	8,4
24+25	Manufacture of Basic Metals and Fabricated Metal Products	45,6	11,8	6,9
26+27	Manufacture of Electronic and Optical Products and Electrical Equipment	63,0	-6,0	-1,6
28+29+30	Manufacture of Machinery and Equipment, Motor Vehicles and Other Transport Equipment	96,4	-1,2	-1,4
31+32+33	Manufacture of Furniture, Other Manufacturing and Repair and Installation of Machinery and Equipment	85,1	3,5	6,3
D	ELECTRICITY SUPPLY	140,0	-2,6	-2,7
E	WATER SUPPLY AND MATERIALS RECOVERY	113,9	3,3	6,4
36	Water Collection, Treatment and Supply	167,4	3,0	7,8
38.3	Materials Recovery	56,6	4,4	4,7
B+C+D+E	GENERAL INDEX	91,1	0,8	2,8

METHODOLOGICAL INFORMATION

Scope

The Industrial Production Index reflects the monthly changes of the volume of production in the sectors of mining and quarrying, manufacturing, electricity supply, water supply and materials recovery, that is, sections B, C, D and E of the statistical classification of economic activities NACE Rev. 2 of the European Union. The index does not include sewerage, waste collection, treatment and disposal and remediation activities, which are codes 37, 38.1, 38.2 and 39 of section E.

Data Collection

The collection of data is conducted by the Statistical Service by telephone enquiries or e-mail. The data collection process starts five to ten days after the end of the reference period and is normally completed within a month and a half. The mining and quarrying sector covers all major quarrying products but not the support activities for the extraction of natural gas. For manufacturing, all enterprises with production value 2.000.000 Euros and over or with 20 or more employees are included in the survey and a sample is selected from enterprises employing less than 20 persons. For electricity supply and water collection, treatment and supply, data is collected from administrative sources.

Compilation Methods and Dissemination Practices

The Industrial Production Index is using 2021 as base year, meaning that it shows the monthly changes in production in relation with the monthly average production of the year 2021. In the base year, the average of the production indices for the twelve months is 100,0. For example, a monthly production index of 103,4 means that the production for the specific month has increased by 3,4% in relation to the monthly average production of 2021.

The aggregated Index of Industrial Production is a weighted average of the production indices of the various sub-sectors of Industry, as determined in the statistical classification of economic activities NACE Rev. 2. The weights used for the compilation of the index are derived from the value added of the enterprises in the base year (2021) and reflect the value added of each sub-sector in relation to the total value added of the Industrial sector.

The compilation of the Industrial Production Index follows the provisions of Regulation (EU) 2019/2152 on European business statistics. In addition to gross data, both seasonally and working day adjusted data are transmitted every month to the Statistical Office of the European Union (Eurostat). The Index is published at national level only in its gross form.
