PRESS RELEASE

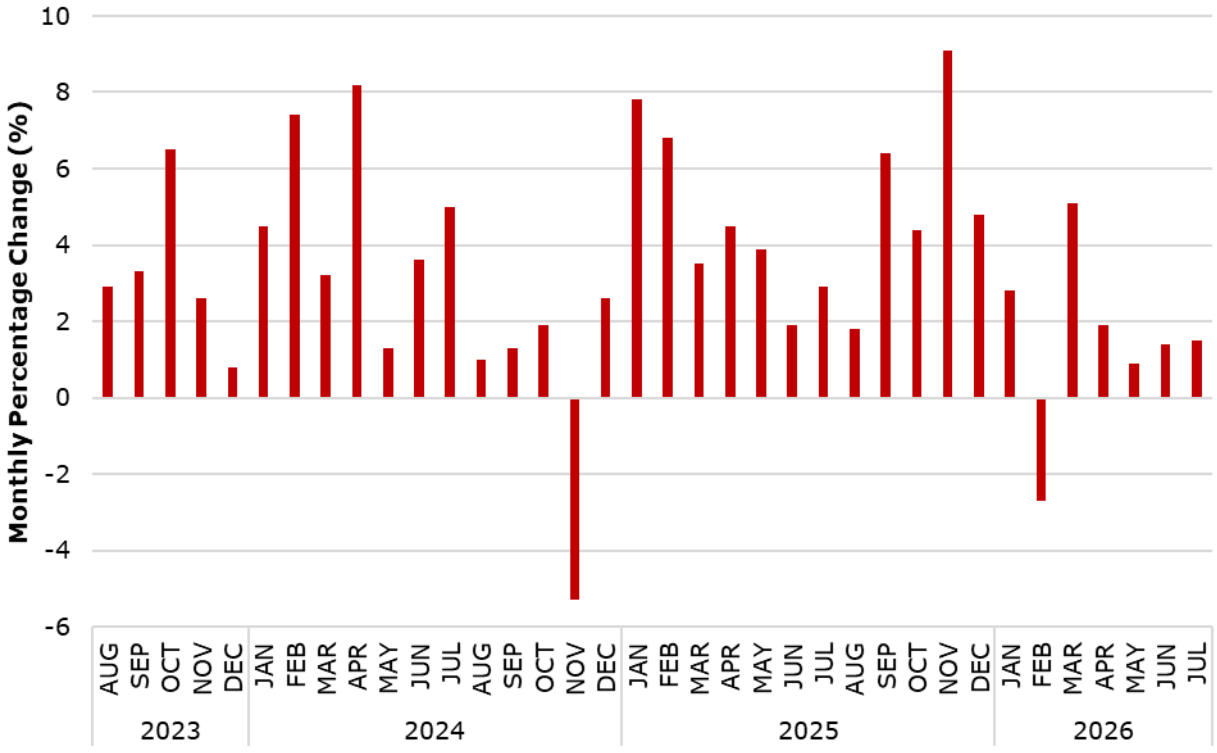

INDUSTRIAL PRODUCTION INDEX: **JULY 2026**

Annual Change +1,5%

In July 2026, the Industrial Production Index reached 129,2 units (base 2021=100), recording an increase of 1,5% compared to July 2025. For the period January – July 2026, the index recorded an increase of 1,6% compared to the corresponding period of the previous year.

Figure 1: Industrial Production Index

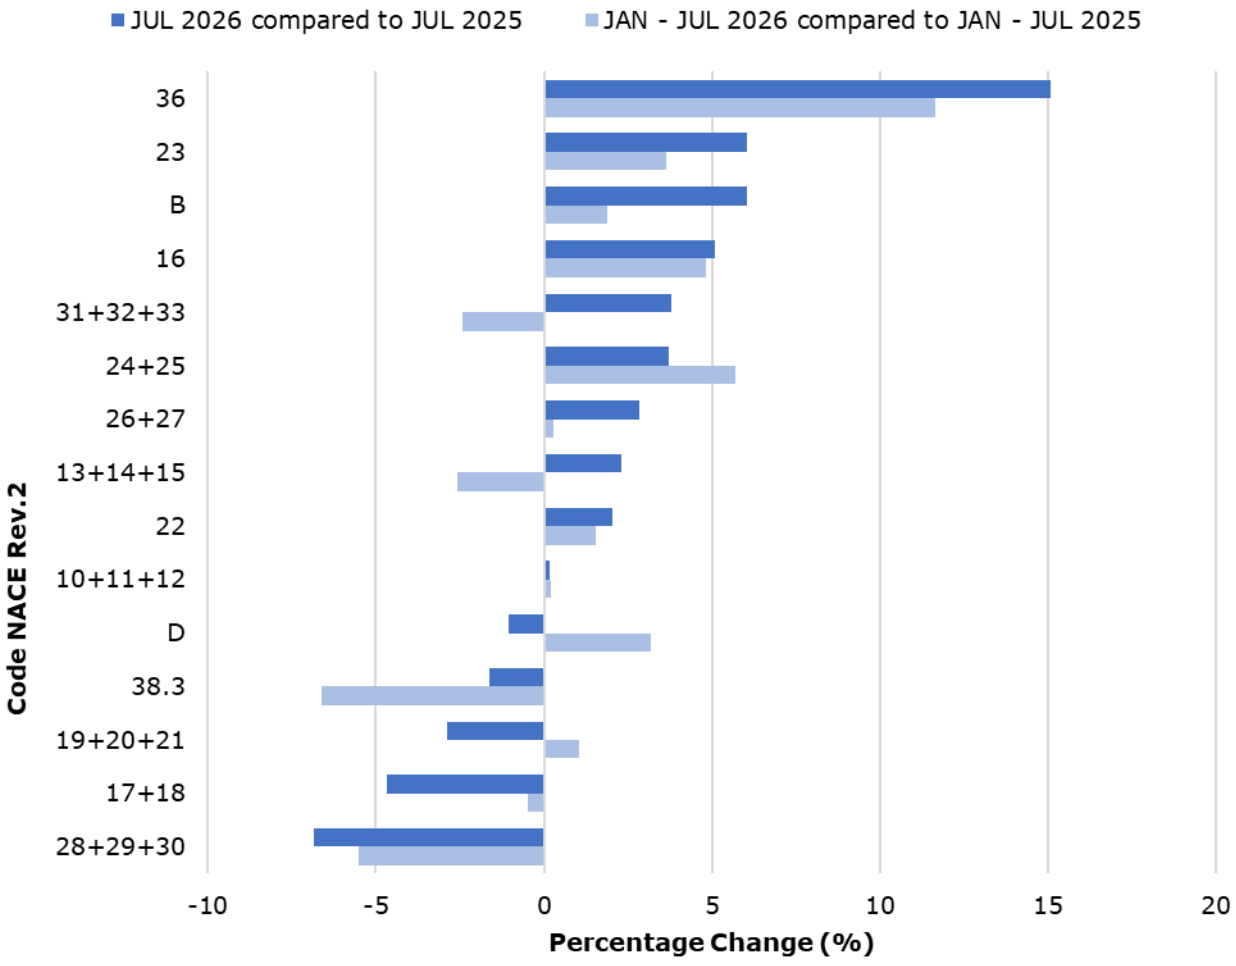

Monthly change compared to the corresponding month of the previous year

The manufacturing sector registered an increase of 1,5% compared to July 2025. An increase was also observed in water supply and materials recovery (+8,2%) and mining and quarrying (+6,0%). A negative change was observed in the electricity supply sector (-1,1%).

In the manufacturing sector, the most significant positive changes compared to July 2025 were observed in the manufacturing of other non-metallic mineral products (+6,0%), the manufacturing of wood and products of wood and cork, except furniture (+5,1%), the manufacturing of furniture, other manufacturing and repair and installation of machinery and equipment (+3,8%) and the manufacturing of basic metals and fabricated metal products (+3,7%). The only negative changes were observed in the manufacturing of machinery and equipment, motor vehicles and other transport equipment (-6,8%), the manufacturing of paper and paper products and printing (-4,7%) and the manufacturing of refined petroleum products, chemicals and chemical products and pharmaceutical products and preparations (-2,9%).

Figure 2: Percentage Change (%) per Industrial Activity

Code (NACE Rev. 2)	
B	Mining and Quarrying
10+11+12	Manufacture of Food Products, Beverages and Tobacco Products
13+14+15	Manufacture of Textiles, Wearing Apparel and Leather Products
16	Manufacture of Wood and Products of Wood and Cork, except furniture
17+18	Manufacture of Paper and Paper Products and Printing
19+20+21	Manufacture of Refined Petroleum Products, Chemicals and Chemical Products and Pharmaceutical Products and Preparations
22	Manufacture of Rubber and Plastic Products
23	Manufacture of Other Non-Metallic Mineral Products
24+25	Manufacture of Basic Metals and Fabricated Metal Products
26+27	Manufacture of Electronic and Optical Products and Electrical Equipment
28+29+30	Manufacture of Machinery and Equipment, Motor Vehicles and Other Transport Equipment
31+32+33	Manufacture of Furniture, Other Manufacturing and Repair and Installation of Machinery and Equipment
D	Electricity Supply
36	Water Collection, Treatment and Supply
38.3	Materials Recovery

Comparing the rates of change for the period January – July 2026 against the corresponding period of the previous year, the most significant positive changes were observed in water collection, treatment and supply (+11,7%), the manufacturing of basic metals and fabricated metal products (+5,7%) and the manufacturing of wood and products of wood and cork, except furniture (+4,8%). The activities where the most significant negative changes in production were registered compared to the period January – July 2025 were those relating to materials recovery (-6,6%) and the manufacturing of machinery and equipment, motor vehicles and other transport equipment (-5,5%).

Table

Code (NACE Rev. 2)	Economic Activity	Index (2021=100)	Percentage Change (%)	
		July 2026	July 2026/2025	Jan-Jul 2026/2025
B	**MINING AND QUARRYING**	**151,2**	**6,0**	**1,9**
C	**MANUFACTURING**	**125,6**	**1,5**	**1,2**
10+11+12	Manufacture of Food Products, Beverages and Tobacco Products	124,4	0,2	0,2
13+14+15	Manufacture of Textiles, Wearing Apparel and Leather Products	164,8	2,3	-2,6
16	Manufacture of Wood and Products of Wood and Cork, except furniture	129,7	5,1	4,8
17+18	Manufacture of Paper and Paper Products and Printing	81,4	-4,7	-0,5
19+20+21	Manufacture of Refined Petroleum Products, Chemicals and Chemical Products and Pharmaceutical Products and Preparations	114,4	-2,9	1,1
22	Manufacture of Rubber and Plastic Products	134,9	2,0	1,5
23	Manufacture of Other Non-Metallic Mineral Products	140,4	6,0	3,6
24+25	Manufacture of Basic Metals and Fabricated Metal Products	139,2	3,7	5,7
26+27	Manufacture of Electronic and Optical Products and Electrical Equipment	90,5	2,8	0,3
28+29+30	Manufacture of Machinery and Equipment, Motor Vehicles and Other Transport Equipment	149,9	-6,8	-5,5
31+32+33	Manufacture of Furniture, Other Manufacturing and Repair and Installation of Machinery and Equipment	120,8	3,8	-2,4
D	**ELECTRICITY SUPPLY**	**139,3**	**-1,1**	**3,2**
E	**WATER SUPPLY AND MATERIALS RECOVERY**	**153,9**	**8,2**	**3,7**
36	Water Collection, Treatment and Supply	184,6	15,1	11,7
38.3	Materials Recovery	121,0	-1,6	-6,6
B+C+D+E	**GENERAL INDEX**	**129,2**	**1,5**	**1,6**

METHODOLOGICAL INFORMATION

Scope

The Industrial Production Index reflects the monthly changes of the volume of production in the sectors of mining and quarrying, manufacturing, electricity supply, water supply and materials recovery, that is, sections B, C, D and E of the statistical classification of economic activities NACE Rev. 2 of the European Union. The index does not include sewerage, waste collection, treatment and disposal and remediation activities, which are codes 37, 38.1, 38.2 and 39 of section E.

Data Collection

The collection of data is conducted by the Statistical Service by telephone enquiries or e-mail. The data collection process starts five to ten days after the end of the reference period and is normally completed within a month and a half. The mining and quarrying sector covers all major quarrying products but not the support activities for the extraction of natural gas. For manufacturing, all enterprises with production value 2.000.000 Euros and over or with 20 or more employees are included in the survey and a sample is selected from enterprises employing less than 20 persons. For electricity supply and water collection, treatment and supply, data is collected from administrative sources.

Compilation Methods and Dissemination Practices

The Industrial Production Index is using 2021 as base year, meaning that it shows the monthly changes in production in relation with the monthly average production of the year 2021. In the base year, the average of the production indices for the twelve months is 100,0. For example, a monthly production index of 103,4 means that the production for the specific month has increased by 3,4% in relation to the monthly average production of 2021.

The aggregated Index of Industrial Production is a weighted average of the production indices of the various sub-sectors of Industry, as determined in the statistical classification of economic activities NACE Rev. 2. The weights used for the compilation of the index are derived from the value added of the enterprises in the base year (2021) and reflect the value added of each sub-sector in relation to the total value added of the Industrial sector.

The compilation of the Industrial Production Index follows the provisions of Regulation (EU) 2019/2152 on European business statistics. In addition to gross data, both seasonally and working day adjusted data are transmitted every month to the Statistical Office of the European Union (Eurostat). The Index is published at national level only in its gross form.
