METHODOLOGICAL INFORMATION

Definitions

Employment – The average number of all persons employed during the year, in full time equivalent terms.

Production value – The value of services produced, net receipts from the sale of goods sold in the same condition as purchased and other income.

Value added at current prices – Derived by deducting from the production value the production expenses as well as the administrative expenses and rents paid for buildings and machinery.

Coverage and collection of data

The Services and Transport Survey is carried out on an annual basis and covers enterprises with the main activity falling under sections H (Transportation and storage), I (Accommodation and food service activities), J (Information and communication), L (Real estate activities), M (Professional, scientific and technical activities) and N (Administrative and support service activities) of the classification system of economic activities NACE Rev. 2 of the European Union.

The Survey for 2020 covered a sample of around 2.610 enterprises. The collection of data by the Statistical Service was done with the use of a special questionnaire.
